Product Engineering

McGRAW-HILL WEEKLY OF DESIGN, RESEARCH AND DEVELOPMENT

1959 INDEX

PART I — VOLUME 30

WEEKLY EDITIONS • JANUARY 5 THROUGH JUNE 29

Subject index • page 2

Author index • page 19

Company names and organizations • page 13

Index includes editorial content of each weekly issue: Feature articles and special reports, staff and contributed, Developments to Watch, Perspectives, Editorials, Product Designs, Significant Parts, Trends in Appearance Design, Design Roundups, Reference Book Sheets, Tangents, and featured items in Engineering Week, Points of View, and Abstracts.

Copyright 1959 by McGraw-Hill Publishing Co., Inc., 330 West 42nd Street, New York 36, N. Y.

—A—

Adhesives
Adhesive bonds dissimilar unvulcanized elastomers (SP)....May 4 35
Adhesives do a better job of bonding lamination stacks. R. E. George....Apr. 27 63
Dry adhesive film preforms (N)....June 8 44
EX-B150-1 can bond dissimilar elastomers before curing (D)....Apr. 27 20
Glue for glass (N)....June 8 35
High-strength adhesives (N)....June 8 47
Stronger epoxy adhesives at lower cost (D)....Mar. 16 26
Thermosetting adhesives (SP)..Apr. 27 75
These parts carry their own adhesives. R. C. Lillie....Mar. 2 57
Vinyl-to-metal bonds that stand boiling for 30 minutes (D)....Apr. 13 35

Administration see **Engineering Administration**

Aeronautics
Aluminum blading can be designed for service at 1800 F (D)....June 8 33
Automatic circuit tester will slash airline maintenance (N)....June 29 26
British predict aircraft with pedals (N)....Feb. 16 24
Design air prop in circular shell (N)....May 18 33
Design holds the key to nuclear aircraft (D)....Feb. 23 7
Fixed compressed air "islands" speed pre-flight test operations (N)..Mar. 30 25
Flight Visulator for jet pilot training (N)....Jan. 19 19
Great Britain stresses supersonic airliner (S)....May 25 22
Mobile lounge for future airport (D)....Apr. 20 13
New altimeter gives faster readout, more accuracy (PD)....May 11 79
Planes built to use existing airports say FAA (D)....June 15 13
Ramjet power plant (N)....Feb. 9 27
Rocket engine suggested for upgrading transport planes (N)....May 4 18
SD-1—radio-controlled reconnaissance (N)....Apr. 6 24
Set design requirements for aircraft instruments, systems (N)....Mar. 9 27
Space range, or chain radar instrumentation system for testing X-15 (N)....Mar. 16 31
System package concept (N)...May 18 23
Wind tunnel (N)....June 22 38

Aluminum
Aluminum forging going after civilian market (N)....Apr. 20 29
Aluminum powder increases plastic strength (D)....June 15 11
Aluminum replaces copper in large motor (N)....Mar. 23 19
Aluminum sub to study ocean bottom (N)....Mar. 9 25
Aluminum and titanium alloy content may increase severity of corrosion of nickel-based materials (D)...June 8 34
Blading can be designed for service at 1800 F (D)....June 8 33
Super-pure aluminum (D)....May 11 22
Ultrasonics bonds aluminum (N)....May 4 16
Vacuum-deposited aluminum coatings (N)....May 25 23
When aluminum forgings become practical. Erhard & Rebro....June 22 76
World's purest aluminum claimed by Soviet engineers (D)....Apr. 6 11

Amplifiers
Miniature loudspeaker solves speech problem (N) ....Mar. 16 27

Appearance Design see **Industrial Design**

Appliances
Automatic rice cooker, Japanese (T)....Jan. 12 39
Food blender (T)....Mar. 9 49
Food machines compared—German and Soviet (T)....Apr. 20 38
"Hat-box" vacuum cleaner (T)..Mar. 9 48
Oven, spherical—for homes of tomorrow (N)....Mar. 23 13
Trends in appearance design from Denmark and Norway (T)....June 1 34
Vacuum cleaner from Italy (T)....Feb. 23 35
Vacuum cleaner — horizontal motor gives more headroom (PD)..Mar. 16 60

Applied Mechanics
Cavitation in positive-displacement pumps. W. E. Wilson....Mar. 2 47
Design your own dc motors with printed circuit rotors. Burr & Swiggertt....Mar. 16 64
Failure diagram for fluctuating stress. M. F. Spotts....Feb. 16 66
Helical-spring design chart Charles Tiplitz (RS)....Jan. 19 93
How much force to deflect a spring sideways? W. H. Sparing (RS)....Jan. 5 71
New equations locate dwell position of 3-gear drives. Dr. H. Hirschhorn....June 8 80
Numerical integration works with dynamic systems too. E. E. Ungar....Apr. 27 64
Photostress values direct from the polariscope. Zandman & Redner (RS)....June 22 89
Power cylinders: charts give safe piston-rod size. Z. J. Lansky (RS)....Feb. 2 67
Record gear ratios. Sigmund Rappaport....June 22 67
Space crank . . . a new 3-D mechanism. Predale & Hulse, Jr....Mar. 2 50
When air is the coolant. Mrs. B. O. Buckland....Feb. 16 54

Assembly
Assembly methods . . . an engineering roundup—report. D. C. Greenwood....June 8 91
Dimensioning of machine assemblies (A)....Jan. 19 122
9 ways to align mating parts. Wood, Jr. & Minter (DR)....May 11 88
When air is the coolant. Mrs. B. O. Buckland....Feb. 16 54

Automotive
Air pollution: some answers (P)....Feb. 16 47
British scale Austins longer, wider (N)....Feb. 9 38
California to legislate against air pollution (N)....Mar. 2 25
Canadians veto US truck designs (N)....Feb. 9 28
Car capitol news roundup (N)..May 18 25
Cost-cutting features highlight design of Studebaker-Packard Lark (N)....June 22 38
De Soto Cella I (T)....Feb. 9 40
Electric cars (D)....May 18 7
Electric cars and trucks are coming back (D)....Jan. 26 7
Ferrari has columnless windshield (T)....June 29 34
Fugi's Skyline car imported (N)....June 22 39
GM will offer only small car in 1960 (N)....Mar. 16 28
Guided buses being studied by CTA (D)....Feb. 2 13
Hydraulic coupling lets driver switch to supercharger (PD)....Apr. 13 67
Japanese truck design (T)....Jan. 12 38
Low-cost automatic transmission for British cars (N)....Mar. 23 22
Low-cost catalytic muffler (N)..Jan. 12 25
Motor vehicle design may come under Federal scrutiny (D)....May 4 9
Motorcycle from Italy (T)....Feb. 23 34
Originality—design secret of foreign cars (PD)....Apr. 27 54
Safety steering wheels (T)....June 29 34
Small car—Booth, A. G. says Europe not impressed by advent of US "small" car (N)....Mar. 30 23
Small cars will feature new engines, brakes, transmissions and mufflers (D)....Apr. 20 9
Soviet-designed cars slated for West German market (N)....Mar. 16 31
Soviet small car coming up (N)....Mar. 2 24
Switch in headlight design evident at Peking Automobile Factory (N)....Feb. 16 23
"Tigre" truck from Italy (T)..Feb. 23 34
Trailer design permits simple gear relocation (N)....Feb. 16 25
Trolley buses from Germany (N)....Jan. 5 25
Truck has rubber knees (PD)..Mar. 2 55
What major technological advances do your foresee in your industry during the next five years? (PV)...Feb. 9 38
Wheeless Ford slides on air (N)....June 14 23

—B—

Batteries
Battery-operated radar sets (D)....Mar. 30 19
Cadmium sulfide solar batteries (N)....Jan. 12 18
Higher-energy batteries. E. C. Pitzer....May 25 46
Nuclear batteries (SP)....Jan. 26—44, (D) June 1 9

Bearings
Alloyed plastics give oilless bearings. H. Clay Mellor....May 25 58
ASA sets bearing standard (N)....June 29 29
Critical speeds of ballbearing-supported shaft (A)....June 22 134
Design criteria for oscillating plain bearings (A)....June 22 134
Drill jewel bearings thermally (N)....Feb. 16 23
Electrical currents in bearings (A)....Apr. 13 125
Fatigue failure caused by fiber orientation (D)....June 1 9
Floating bearing adjusts itself (PD)....June 8 82
Gas bearings running at 2000 F (D)....Feb. 23 7
High-speed bearings (N).....June 8 42
Knurled-shank bearing bolt (SP)....May 25 69
Self-compensating hydrostatic bearings (SP)....June 29 28
Lignum vitae—Old-timer still going strong (N)....June 8 44
Quiet pillow-block bearings (SP)....Feb. 16 79
Russians automating bearing plants (N)....Jan. 19 18
Self-lubricating metal-plastic bearing (SP)....Apr. 13 85
Stepped-thrust bearings (A)...June 22 139
Study to develop better bearings for "space ships of the future" (D)....Mar. 16 25
Tester speeds development of new oilless bearing (N)....Apr. 20 25
Thermosetting-plastic bearing material with lubricant built in (D)...Mar. 9 9
Wood bearings (D)....Mar. 23 9

Belt Drives and Conveyors
Intermittent drive unit (SP)...Apr. 20 42
Multi-V-ribbed, light-duty rubber belt (SP)....June 8 107
New belt for small drives (N)..June 1 24
Nonmetals for built-in conveyors. A. R. Gardner....Apr. 27 51
Revolving drum saves abrasive belts (PD)....June 8 85
Slimmer belts can be used with standard drives (D)....May 25 19
Smaller, lighter belt drive (SP)..Jan. 5 75
Stronger, narrower, V-belt drives. W. S. Worley....Apr. 13 72
Timing-belt drive (SP).....May 18 47
Timing belt that can serve as a V-belt (D)....Apr. 6 9
V-belt ratings tripled by stress analysis technique (N)....May 4 19

Bonding
Adhesives do a better job of bonding lamination stacks. R. E. George....Apr. 27 63
Metal bonding aids spinning. Harold Marks....Feb. 16 63
Smooth surfaces prove better adherents than rough (N)....May 18 14
These parts carry their own adhesives. R. C. Lillie....Mar. 2 57
Ultrasonics bonds aluminum (N)..May 4 16

Book Reviews
Adhesive bonding of reinforced plastics. H. A. Perry....Apr. 13 127
Advanced mechanics of fluids. Hunter Rouse....May 11 255
Advisory group on electronic parts....May 11 252
Air Force Materials Research and Development Program. H. E. Hines....Jan. 5 96
Analog simulation. W. J. Karplus Phd....Mar. 16 131
Analysis and control of nonlinear systems. Y. H. Ku....Feb. 16 121
Annealing of low-carbon steel..Feb. 16 132
The Atlantic cable. Bern Dibner....June 15 53
Automation and society. Jacobson & Roucek....June 29 41
Automation systems....Feb. 16 121
Basics of pulses. I. Gottlieb.....May 11 271
Basics of digital computers. Volumes 1, 2 & 3. J. S. Murphy.....Feb. 2 91
Battery engineering manual.....Feb. 2 93
Bearings and seals. Stanley Gray....May 4 41
Behavior of metals at elevated temperatures....June 8 141
Bibliographic survey of corrosion, 1954-55....Jan. 19 141
Buckling of metal columns. Rudnick, Carlson & Manning.....May 11 262
Cast age-hardenable austenitic steels....May 25 98
Cellulosics. W. D. Paist.....Feb. 16 126
Centralized information services. Kent & Perry....Jan. 19 124
Chamber's technical dictionary ed Tweney & Hughes.....Jan. 19 124
Chemical compositions and rupture strengths of super-strength alloys Simmons & Krivobok.....Feb. 16 133
Chemical processes as methods of achieving high temperatures. David Altman....Apr. 27 114
Collective bargaining as viewed by unorganized engineers and scientists. J. W. Riegel.....June 15 53
Color planning for business and industry. Howard Ketcham.....May 18 53
Compact heat exchangers. Kays & London....May 25 101
Comparative information-handling performance with arabic numerals. Alluisi & Martin.....Jan. 19 128
Computer applications, proceedings of fourth annual computer application symposium ...Feb. 16, 125...May 11 279
Conduction of heat in solids. Carslaw & Jaeger....May 11 287
Conference on extremely high temperatures ed Fischer & Mansur...Feb. 16 135

(A) Abstract. (D) Developments. (DR) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (PV) Points of View.
(RS) Reference Book Sheets. (SP) Significant Parts. (T) Trends in Appearance Design.

Conference on welding engineering US Army Engineer Research and Development Laboratories .....Feb. 2 91
Control system components. Gibson & Tuteur .....Jan. 19 131
Creep of engineering materials. Finnie & Heller .....Mar. 2 91
Data-reduction catalog. Hollitch & Hawkes .....Apr. 27 114
Decision-making and productivity. Seymour Melman .....June 1 41
Design data for o-rings and similar elastic seals. F. W. Tipton & others Apr. 27 113
The design of physics research laboratories .....May 11 283
Dictionary of physics. H. J. Gray .....Feb. 2 89
Direction-of-knob-turn stereotypes. J. V. Bradley .....Jan. 5 97
Drafting standards—gears, splines and serrations. American Drafting Standards Manual .....Apr. 13 127
Drafting standards—plastics ..Mar. 30 91
Dynamic corrosion in polyphenyls under irradiation .....Jan. 19 138
Effect of loading rate on strength of single and multiple rivited joints. R. F. Klinger.....Mar. 16 135
Effect of metals on lubricants. J. B. Christian .....Mar. 2 91
Effect of surface on the behavior of metals .....Mar. 2 94
Electrical construction materials and equipment list .....Feb. 16 125
Electrical machinery. C. C. Carr Feb. 16 131
Electrical measurements. A. W. Smith June 22 140
Electricity and magnetism. J. Newton Jan. 5 94
Electromechanical energy conversion. White & Woodson.....May 11 250
Electron tubes for critical environments Feb. 16 132
Electronic circuits. E. J. Angelo, Jr. Jan. 19 149
Electronic components handbook—Vol. 2. Henney & Walsh.....Jan. 19 145
Electronic digital computers. C. V. L. Smith .....May 11 279
Electronic engineer's reference book. L. E. C. Hughes.....Apr. 27 110
Elementary mathematical programming R. W. Metzger.....Mar. 16 127
Elementary matrix algebra. F. E. Hohn .....Mar. 16 127
Elements of engineering statics. H. Deresiewicz .....Mar. 16 122
Engineering consultants .....Jan. 19 139
Engineering drawing 2nd ed. Frank Zozzora .....Mar. 2 91
Engineering electromagnetics. W. H. Hayt, Jr. .....Feb. 16 125
Engineering manual: practical reference of data and methods ed Perry & Perry .....June 8 143
Engineering mechanics-dynamics. Langhaar & Boresi.....May 25 98
English-Russian, Russian-English electronics dictionary. Dept. of the Army .....Feb. 2 91
Epoxy resins. Irving Skeist...May 11 260
Estimating manual for screw-machine products .....Apr. 13 129
Expansion machines for low-temperature processes. Collins & Cannaday May 11 283
Experimental designs in industry ed Victor Chew .....May 11 276
Experimental study of an aerodynamic rectifier. F. O. Wooten.....Feb. 16 131
Experiments on vigilance one-clock and three-clock monitoring. H. J. Jerison .....Jan. 19 138
FBI Register—1959 .....Feb. 2 89
Finding and developing engineering personnel. Alleman & Alexander May 4 41
Flammability characteristics of aircraft hydraulic fluids. Zabetakis, Imhof & Lang.....June 22 147
Fluid power controls. Pippenger & Koff Mar. 16 119
Fluorocarbons. M. A. Rudner. Jan. 19 147
Fundamentals of engineering drawing. W. J. Luzadder .....May 11 254
Fundamentals of transistors. Leonard Krugman .....Apr. 27 110
Gas tubes. Alexander Schure..May 11 269
Gear ratio tables for 4, 6 and 8-gear combinations. Earle Buckingham Mar. 30 93
Glass engineering handbook. F. R. Shand .....Jan. 19 149
Graphical communication. E. D. Black May 11 273
A guide to engineering education. F. W. Eller .....Mar. 9 65
Guide to the literature of mathematics and physics. N. G. Parke III June 22 141
Gum plastics. M. S. Thompson May 11 256
Handbook of automation computation and control. E. M. Grabbe & others Jan. 19 134
Handbook of chemistry and physics—40th edition .....Jan. 19 145
Handbook of mathematical tables and formulas. R. S. Burington..May 11 264
Handbook of physics ed Condon & Odishaw .....Feb. 16 135
Handbook of probability and statistics with tables. Burington & May May 11 246
Heat and mass transfer. Eckert & Drake .....May 11 260
High-temperature alloys melted and precision cast in air and vacuum. M. J. Stutzman.....Mar. 2 93
High-temperature effects in aircraft structures. Nicholas John Hoff May 25 101
High temperature hydraulic fluid. Baum & Benzing.....Feb. 2 95
High-temperature solid dry-film lubricants. M. T. Lavik.....Apr. 27 114
History of mathematics. J. E. Hofman .....Jan. 5 96
History of mathematics Vol. I and II. D. E. Smith.....Mar. 30 93
A history of technology in five volumes ed Singer & others.....Feb. 9 48
How to design and specify printed circuits .....May 11 256
Human engineering bibliography, 1955-1956 .....Jan. 19 128
Hydraulic seals for temperatures to 500 F. C. W. Galloway.....June 22 140
Induction motors—single phase & polyphase. C. S. Siskind.....Jan. 19 150
Information and communication practice in industry. T. W. R. Singer Feb. 23 45
Introduction to electromagnetic fields. Samuel Seely .....Feb. 2 93
Introduction to a study of mechanical vibration. G. W. Van Santen..Jan. 19 131
Introductory graphics. J. N. Arnold Feb. 16 133
Investigation of nodular cast iron May 11 252
The junction transistor and its applications. E. Wolfendale.....Feb. 2 93
Junction transistor electronics. R. B. Hurley .....Apr. 13 131
Knurling .....Jan. 19 141
Letter symbols for hydraulics..May 25 101
Linear programming — fundamentals and applications Ferguson & Sargent Feb. 16 123
Linear programming—methods and applications. S. I. Gass.....Feb. 16 121
Logical design of electrical circuits. Higonnet & Grea.....May 11 246
Low-temperature physics and chemistry ed J. R. Dillinger.....Feb. 16 131
Machine design problems. D. J. Myatt June 8 147
Machine tools for engineers. C. R. Hine .....June 22 141
Magnetic amplifier engineering. G. M. Attura .....May 11 289
Man and his physical universe Jean, Harrah, Herman & Powers..Jan. 12 49
Management's stake in research. Maurice Holland .....Jan. 26 49
Mark's mechanical engineer's handbook. Theodore Baumeister..Apr. 13 131
Materials for rockets and missiles. Frank & Zimmerman.....June 8 145
Mechanical design and analysis. R. R. Slaymaker .....May 11 281
Metals for supersonic aircraft and missiles .....June 8 141
Metrical relations among dimensions of head and face. Churchill & Truett Jan. 5 94
Modern foundry practice. E. D. Howard June 22 145
Modern Jupiter. John Anderson Miller Apr. 20 49
Modern transistor circuits. J. M. Carroll .....June 22 145
Moments of discovery ed Schwartz & Bishop .....Jan. 12 49
NEMA standards publication for motors and generators.....May 11 246
Nonlinear control systems. R. L. Cosgriff .....Feb. 16 126
Nonlinear problems in random theory. Norbert Wiener .....May 11 281
Nuclear engineering ed Harold Etherington .....Feb. 16 135
Nuclear handbook. O. R. Frisch May 11 254
Numerical control systems for machine tools .....Jan. 19 147
Operations research in industrial management. D. M. Chorafas.....May 4 41
Physical laws and effects. Hix, Jr. & Alley .....May 18 53
Plain washers .....Jan. 5 97
Plastic analysis of structures. P. G. Hodge .....May 25 98
Plastic design of steel frames. L. S. Beedle .....May 11 266
Polymers and resins. Brage Golding June 22 141
Powder metallurgy in nuclear engineering .....Mar. 30 91
The physicist's conception of nature. Werner Heisenberg .....Mar. 23 37
Preferred numbers .....Apr. 27 114
Principles of electronic instruments. Dr. G. R. Partridge.....Mar. 16 122
Proceedings of the National Electronics Conference .....Feb. 2, 91—June 22 149
Programming for digital computers. Joachim Jeenel .....May 11 291
Psychological stress as a theoretical concept. W. Dean Chiles.....Jan. 5 97
Punched cards, 2nd ed ed Casey, Perry, Berry and Kent.....Mar. 16 131
Radio engineering handbook. Keith Henney .....May 11 274
Reliable electrical connections—1958 Third EIA Conference on Reliable Electrical Connections .....Feb. 2 88
Reliability bibliography—supplement 1 Jan. 19 124
Research on flammability of aircraft hydraulic fluids. Zabetakis, Imhof and Lang .....June 8 142
Results approach to organization May 11 255
Rotational motion. N. W. Carlson May 11 269
Sale—leasebacks and leasing in real estate and equipment transactions. Greenfield & Griesinger.....Mar. 16 119
Scientific programming in business and industry. Andrew Vazsonyi..May 11 285
Short dictionary of mathematics. C. H. McDowell .....Jan. 19 141
Shot peening .....June 22 149
Silanes in hydraulic fluids and lubricants. Adams & Baum.....June 22 140
Simplified problems in strength of materials and structural design. E. Viertels .....June 8 141
Simplified technique of control system engineering. Tucker & Wills..May 25 98
The solid state for engineers. M. J. Sinnott .....Feb. 2 88
Statistics of extremes. E. I. Gumbel Mar. 2 93
Steel butt-welding fittings.....Jan. 5 94
Structural design for dynamic loads. C. H. Norris & others.....May 11 271
Structure of steel. Gregory & Simons Mar. 2 91
Study of tubing for aircraft hydraulic systems. Cooke & Stouffer...Feb. 2 95
Survey of ferroelectrics at high temperatures. C. F. Pulvari.....Jan. 19 147
A survey of hydrodynamic and hydrostatic lubricated bearings. M. A. Koenders .....Apr. 27 114
Switching circuits and logical design. S. H. Caldwell.....May 11 266
Symposium on elevated-temperature strain gages .....May 11 264
Tables for machine literature searching. Perry & Kent.....May 11 287
Tables of modified quotients of Bessel functions. Mario Onoe.....Mar. 30 91
The tao of science. R. G. H. Siu June 29 41
Tapping screws .....Jan. 19 141
Technical drawing 4th ed. F. E. Giesecke .....Feb. 16 133
Technical editing ed B. H. Weil..Feb. 23 45
Terms and definitions for the weighing industry. Scale Manufacturers Assn. Mar. 16 135
Theoretical and experimental analysis of members loaded eccentrically and inelastically. Sidebottom & Clark Jan. 19 138
Theoretical and experimental analysis of stress and strain. A. J. Durelli & others .....Apr. 13 129
Thermodynamic and transport properties of gases, liquids and solids May 11 274
Tooling for metal powder parts. G. H. DeGroat .....Jan. 19 147
Transform method in linear system analysis. J. A. Aseltine.....Jan. 19 150
The uncommon man: the individual in the organization. C. H. Greenewalt Apr. 6 56
Vibration manual for engineers. Office of Technical Services, Dept. of Commerce .....Mar. 30 91
Vinyl resins. W. Mayo Smith..Jan. 19 151
Welding handbook — fourth edition. section 2 .....May 25 101
Welding symbols. American Welding Society .....Mar. 16 127
What every supervisor should know. L. R. Bittel.....June 1 41

Brakes

Saw stops in 5 sec. with capacitor braking (PD) .....June 22 72
Sintered-metallic materials for better brake lining (D).....Mar. 2 19

Brazing

Furnaceless brazing (N).....Mar. 23 19
Honeycomb brazing meets quadrupled needs (N) .....Apr. 27 23
More stainless honeycomb with new furnaceless brazing (N).....Mar. 16 29

—C—

Cams

Roll cams: they stop and go on demand. A. C. Dunk.....Jan. 19 68
Space crank . . . a new 3-D mechanism. Predale & Huise, Jr.....Mar. 2 50

Castings

Adhesive-bonded diecastings (N) June 8 44
Controlled explosive blasts hardness into steel. W. A. Harper....Apr. 13 62
Forging presses strength into lightweight castings. W. Rostoker..Feb. 16 61
ICI members research for each other (N) .....Mar. 23 21

(A) Abstract. (D) Developments. (DR) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (PV) Points of View.
(RS) Reference Book Sheets. (SP) Significant Parts. (T) Trends in Appearance Design.

Investment casting (A).....May 25 97
Investment casting — or sintered powder? L. E. Raymond....June 8 86
Steel and nickel castings get new specifications (N) .....Apr. 6 16
Precision cast plastic mirrors (D) .....Feb. 23 7
Ribbed nonferrous metal sheeting cast to shape (D).....Mar. 9 13

Ceramics
Ceramic structural materials strengthened by alloying (D).....Mar. 9 10
Ceramics used to insulate structural parts (N) .....June 29 30
Coatings that break circuits (D) .....Jan. 19 13
Electrostrictive ceramic measures voltage (SP) .....June 1 26

Cermets
Thermitic cermets made with beryllium (D) .....Mar. 2 20

Chain Drives
Complex kinematic chains (A)..Jan. 5 93
Molded nylon chain for lightweight drives (D) .....Feb. 23 8

Clutches
Cam-type centrifugal clutch (SP) .....Jan. 19 95
Chromallized clutch — reduced wear, longer life (N).....May 11 24
Magnetic clutch eliminates airgap adjustments (SP) .....Apr. 13 85
Magnetic-powder clutch drives car (PD) .....June 8 84
Miniature roller clutches (SP)..Jan. 19 95
Roller clutch smooths bus ride (PD) .....Feb. 16 60
Roller-type clutch, designed in England (D) .....Feb. 16 19
Sprag clutch (N).....June 8 42

Color
Color-coding plastic parts (SP)..Jan. 12 43
Electroluminescence in color (SP) .....Mar. 2 71

Compressors
Compressed air de-ices bodies of water in Sweden (N).....Jan. 26 21

Computers
Aids design of Army tactical equipment (N) .....Apr. 6 23
Analog-to-digital recorder (SP) .....June 1 36
Analog and digital techniques control machine member (N).....May 25 21
Computer technology lags in USSR (N) .....Apr. 6 28
Data handlers for computers and controls (T) .....Jan. 26 36
NBS facility to simulate government data-processing systems (N)..Apr. 6 25
Numerical control programs now written by computer (N)....Mar. 9 28
Solution by analogy. R. M. Koff .....Jan. 26 28
Synthesis of path-generating mechanisms (A) .....Jan. 19 122
Tape-controlled positioning table (N) .....May 11 23
Thinking machines need thoughtful men. R. M. Koff.....May 4 32
Three on designing by computer (A) .....Mar. 2 89
Transcriber speaks computing languages (N) .....June 15 34
US to dominate Paris computer conference (N) .....Mar. 23 20
Xerographic computer output prints 650,000 characters/min. (D)..Apr. 20 11

Control Systems
Adaptive control systems (A)..Apr. 27 107
Analog and digital techniques control machine member (N).....May 25 21
Automatic control functions (A) .....Mar. 30 88
Command control for machine tools, aircraft (D) .....May 4 8
Designing control consoles. Peters & Adams .....Apr. 13 64
Frequency-control apparatus (D) .....Mar. 2 20
GE redesigns 2 machine tools for numerical control (N).....Jan. 19 16
Guided buses being studied by C'TA (D) .....Feb. 2 13
Hand-held controller (N).....June 8 45
Hi-temp hydraulic research (D) .....June 22 37
Largest static control system described at machine tool forum (N)..Apr. 27 21
Level monitoring system for dry materials (D).....Apr. 20 11
Liquid-level controls (N).....June 8 46
Machine duplicates human behavior in manufacturing process (N)...Jan. 12 23
Monitoring system for battery water level (D).....Apr. 6 11
Numerical control programs now written by computer (N).....Mar. 9 28
Optical tolerance monitor (SP).Jan. 12 43
Process control by nuclear magnetic resonance spectroscopy (N)..Jan. 26 12
Republic Aviation undertakes research to develop high-temperature hydraulic control system (D)..June 22 37
Shaft-driven electrical control (SP) .....Apr. 27 75
Solution-level control (SP).....Jan. 19 95
Tape control offers versatility (N) .....Jan. 19 18
Tape-controlled positioning table (N) .....May 11 23
Temperature-control system, lightweight (D).....Feb. 16 19
Thermostatic heater control (T) .....June 15 43
"Thin-film optics" new devices for heat control, wear measurement (D) .....Jan. 19 14

Copper
Copper alloys for those small tubular parts. D. S. Granniss.....Feb. 2 44
Copper tube with off-center hole to be available (D).....May 18 7

Corrosion
Aluminum and titanium alloy content may increase severity of corrosion of nickel-based materials (D)...June 8 24
Chromium process improves corrosion resistance (N).....June 15 28
Corrosion-stoppers—how do they work? (N) .....May 18 12
Load-tester for corrosion research (N) .....Mar. 23 12
More-effective corrosion inhibitors (D) .....May 11 21
'Noble' titanium ups corrosion resistance (N).....Apr. 13 42
Rust preventives from natural tannins (D) .....Jan. 12 12
6 types of corrosion . . . a preventive guide. P. C. Noy (RS).....Mar. 2 67
Stress corrosion cracking—new explanation (D) .....May 25 20
Test for oxidation resistance of superalloys. Rod Simenz.....Apr. 27 48

Couplings
Flexible couplings (SP).....Mar. 2 71
Flexible torsional couplings (A) .....June 22 134
Hydraulic coupling lets driver switch to supercharger (PD).....Apr. 13 67
Pipe coupling (SP).....Mar. 23 32
Plastic pipe coupling protects tube ends (N) .....Apr. 6 25
Self-aligning free coupling (SP).Feb. 9 43
Swivel and ball couplings (D)..Mar. 2 19

Cryogenics
Cryogenic research may be helped by magnetogenics (N).....June 29 12

Cylinders
For thick-end cylinders these stress-correction factors. R. I. Isakower (RS) .....May 25 65
NFPA urges standardized rod, bore cylinder sizes (N).....June 1 24
Power cylinders: charts give safe piston-rod size. Z. J. Lansky (RS) .....Feb. 2 67
Pressurized cylinders for high temperatures (A).....May 25 94
Thin steel makes tough cylinders (N) .....June 8 27

—D—

Design
Aluminum forgings become practical. Erhard & Rebro.....June 22 76
At the edge of the unknown . . . (Ed) .....May 4 27
Buckling in hydraulic tubing. W. H. Cooley .....May 11 71
Cavitation in positive-displacement pumps. W. E. Wilson.....Mar. 2 47
Control consoles design. Peters & Adams .....Apr. 13 64
Controlled explosive blasts hardness into steel. W. A. Harper.....Apr. 13 62
Design is not a spectator sport (Ed) .....May 25 39
Design review will catch those boners. D. P. Simonton.....Jan. 5 64
Does America have a design heritage? (PV) .....May 18 35
Does QUALITY really pay? (Ed) .....Mar. 16 49
"Drei Minuten" (Ed).....Mar. 9 23
Electromachining speeds its attack—Japanese spark machine. H. L. Kee .....Mar. 2 59
Engineering organization in transition —report. E. J. Tangerman...May 11 47
The failed mugwump (Ed)....May 18 19
Fan—small fan clips into tight spot. J. C. Larson.....Apr. 13 76
Gears—another 12 unusual gearing devices. Federico Strasser (DR) .....Apr. 13 78
Germany is heading for design prominence (N) .....June 8 40
Germany—a tale of two fairs (P) .....Apr. 27 45
Helical-spring design chart. Charles Tiplitz (RS) .....Jan. 19 92
How to put more into your spun parts. F. J. Covelli.....Apr. 27 58
Ingenious design solves engineering material problems (N).....May 4 11
"Insect-wing" metal panel. Dr. W. M. Von Tannenberg.....Mar. 16 62
Is it good company policy to plan for a limited product life? (PV)...Mar. 9 52
Lunik—design details from Russia (N) .....Feb. 2 15
Monorail design for Seattle (N).Feb. 16 24
Motivation research—To what extent does motivation research affect your product's design? (PV).....Jan. 26 40
Motors—design your own dc motors with printed circuit rotors. Burr & Swiggett .....Mar. 16 64
99.44% pure isn't enough (Ed)..Jan. 5 41
Nonmetals for built-in conveyors. A. R. Gardner .....Apr. 27 51
Nuclear-powered merchant ship to try new design (N).....Mar. 9 29
Numerical integration simplifies complex design. E. E. Ungar....Mar. 16 50
Originality—design secret of foreign cars (PD).....Apr. 27 54
Polaris-carrying sub—tribute to design ingenuity (N).....Feb. 23 21
Product design for —300F. P. E. Loveday .....Feb. 2 60
Relay specifications testing tool. T. R. Welch .....June 8 88
Reliability starts with design symposium agrees (N).....Jan. 26 20
Roll cams: they stop and go on demand. A. C. Dunk.....Jan. 19 68
Rotary-linear motion: 20 converting mechanisms. Federico Strasser (DR) .....Mar. 2 64
6 mixers for burner gas and air. D. C. Greenwood (DR).....June 22 86
SPE Annual Technical Conference, Jan. 27-30—papers (A).....Mar. 16 111
Soviet journals pour out the news—a review of recent engineering developments described in USSR publications (N).....Jan. 12 23
Space crank . . . a new 3-D mechanism. Predale & Hulse Jr.....Mar. 2 50
Static-pressure transducers. H. D. Nunn .....Jan. 5 48
12 expanding and contracting devices. Federico Strasser (DR).....Jan. 19 88
Too many "look-alikes" in American designs says Japanese visitors (N) .....Apr. 13 37
Trade fairs roundup—German Industries Fair; Japanese International Trade Fair; Third Annual World Trade Fair (N).....May 25 24
12 wire guides. F. W. Wood Jr. (DR) .....Apr. 27 68
U. S. Army's Armalite rifle (N).Apr. 27 23
V-belt drives—stronger, narrower. W. S. Worley.....Apr. 13 72
When air is the coolant. Mrs. B. O. Buckland .....Feb. 16 54

Design Engineering Show
ASME Design Engineering Conference to meet in Philadelphia (N)..May 4 20
Coming May 31.....Apr. 13 61
An industrial designer eyes the design show (T) Joseph Carreiro...June 15 42
Design Show Issue.....May 11
ASME Design Engineering Conference Program.....May 11 100
Who's Who and What's What .....May 11 102
Who's Showing What—by exhibitor .....May 11 118
Who's Showing What—by product .....May 11 138
Fourth Design Conference . . . and the Design Show—high points (N) .....June 8 40

Drafting
Adjustable drafting boards (N)..June 8 47
Dept. of Defense issues new engineer drawing spec (N).....May 4 22
Drafting table-desk (T).....June 15 43
Freehand sketches. J. J. Foley Jr. .....Feb. 9 34
More uniform drafting practices (N) .....June 8 28
Recorder-programmer (N).....June 8 48
Two new drafting tables (N)..June 8 47

Drawing and Forming
Copper alloys for those small tubular parts. D. S. Granniss.....Feb. 2 44
Explosive forming (D).....Mar. 16 25
Fluid-pressure forming (N).....June 8 43
Production explosive forming on a predictable basis (N).....Apr. 20 26
Refractory metals safeguards. A. F. Busto .....May 25 43
Ryan uses explosives on hard-to-form metals (N) .....Apr. 20 27
Tungsten is deep-drawn and extruded (N) .....Apr. 6 16

—E—

Economics
Britain ups its aid to R & D (N) .....Feb. 9 27
Chinese industrialization based on improvisation (N) .....Apr. 6 26

(A) Abstract. (D) Developments. (DR) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (PV) Points of View.
(RS) Reference Book Sheets. (SP) Significant Parts. (T) Trends in Appearance Design.

Federal R & D budget (P).....Jan. 5 39
Red China heavy machine tool output rise seen (N).....May 4 16
R & D commitments on rise: businessmen forsee steady increase to 1962 (N).....Apr. 20 23
R & D defense dollars will be added to US budget (N).....Feb. 2 18
Siberia to account for 40% of Soviet industry output by '65 (N)...May 11 25
Soviet technical progress pressing US abroad (N).....Mar. 9 26
Soviets declare output gains (N) May 18 23
US firms seek share of new Europe Common Market (N).....Mar. 2 25
US role as world producer fading (N) June 1 23
Unity in Western Europe (P)...Mar. 2 39

Editorials
Advertising . . . aide to engineering advancement .....Feb. 16 49
At the edge of the unknown . . . May 4 27
"Because it's there".....Apr. 6 21
The case of the crazy Greek...Apr. 20 21
Design is not a spectator sport.May 25 39
Dialects in engineering.....Mar. 30 41

Young engineers attracted by government jobs (N).....May 11 24
Young scientists vie for national honors (N) .....Apr. 27 26

Engines and Engine Control
Allison engineland (N).....Mar. 16 32
ASME notes on diesel design (N) June 22 41
Another way to stop runaway turbines (PD) .....Feb. 16 59
Autcmotive gas turbine (N).Apr. 20 24
Baby diesel engine that develops 23 shp at 3000 rpm (D).....Mar. 30 19
Bristol-Siddeley bares detail of new engine (N) .....June 29 30
Chemical gas-turbine efficiency can be doubled (D) .....May 18 7
Czech design gas turbine locomotive (N) .....Feb. 16 23
Diesel engine, Japanese, for farm use (T) .....Jan. 12 39
French engine interchangeable with US Continental (N) .....June 15 29
Gas-turbine progress report (A) Jan. 5 93
Gas turbine used in new USSR turbodrills (D) .....Feb. 9 11
GM gas turbine in engineering development stage (N).....Feb. 2 20
Germans develop Europe's first hydrogen-gas diesel engine (D)...June 22 37
Higher compression ratios seen for future engines (D).....June 15 8
Higher engine speeds pose truck transmission problems (N).....Jan. 19 15
Idling engine speeds generator through overdrive (PD) .....June 22 73
Industrial power units in the 18- to 85-bhp range (D).....Mar. 2 20

(A) Abstract. (D) Developments. (DR) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (PV) Points of View.
(RS) Reference Book Sheets. (SP) Significant Parts. (T) Trends in Appearance Design.

Marine gas turbine tested for short stop (N) ..... Feb. 16 24
Nondestructive test allows visual examination of turbine blade (PD) ..... May 11 80
Pulsed combustion increases gas turbine efficiency (D) ..... Mar. 9 10
Rocket engine suggested for upgrading transport planes (N) ..... May 4 18
Seek non-aircraft uses for gas turbines (N) ..... Apr. 27 22
Spark plugs made of glass and insulated by gas (D) ..... Mar. 16 25
Split-shaft power takeoff (SP) . Apr. 13 85
Transistorized ignition system to take lid off engine design (N) ..... Mar. 2 25
USSR announces gas turbine engine for locomotives (N) ..... Mar. 16 30
X-15 powerplant (N) ..... Apr. 13 40

Extruding
Beryllium extrusions should be easier to get (D) ..... Feb. 16 19
Bigger nylon parts with extrusion-molding process (D) ..... Feb. 16 19
Lateral-impact extrusion (SP) . . May 4 35
Tungsten is deep-drawn and extruded (N) ..... Apr. 6 16

— F —

Fans
High-performance fan (SP) .... Mar. 9 57
How fan hp and output vary with size. I. J. Roy (RS) ..... Apr. 13 81
Nomograph for changes in fan speed. I. J. Roy (RS) ..... Mar. 30 67
Small fan clips into tight spot. J. C. Larson ..... Apr. 13 76

Fastening
Adjustable pawl fastener (SP) . Apr. 20 42
Assembly methods . . . an engineering roundup—report. D. C. Greenwood ..... June 8 91
Clamp-fastener (SP) ..... Feb. 23 42
Double-ended eyelets (N) ..... June 8 47
High-strength bolts (N) ..... June 8 47
High-tension fasteners (SP) . . . June 29 38
Latching device (SP) ..... May 11 157
Locking nuts and screws (N) . . June 8 46
Miniature socket-head screws (N) ..... June 8 47
Modular latch assembly (SP) . . June 15 47
Molded Delrin plastic fasteners (N) ..... June 8 46
New structural fasteners save 33% in weight (N) ..... May 18 23
Nut, self-locking cap (SP) ..... Feb. 2 71
Nut, self-locking coupling (SP) . Mar. 2 71
Nuts and bolts have integral plastic collars (D) ..... June 29 9
One-hand latching device (N) . . . June 8 47
Press-to-close fastening (SP) . . Apr. 20 42
Push-to-fasten (SP) ..... Feb. 23 42
Rivets fit closer, go in easier (PD) ..... Feb. 2 48
Screw, composite plastic (SP) . . Apr. 20 42
Self-adjusting fasteners for wood and metal (D) ..... May 11 22
Self-drilling screw (N) ..... June 8 47
Small shaft becomes its own broach for retaining gears. W. J. Opocensky ..... Feb. 2 47
Stress of threaded fasteners (A) ..... Feb. 2 87

Fibers
Adhesive-finished, high-tenacity rayon yarn to improve rubber parts (N) ..... June 1 15
Carbide fibers to reinforce metals (D) ..... Mar. 9 10
Fabric investigation leads to new finds (N) ..... June 15 14
Felt, interlocked non-woven (SP) ..... Mar. 23 32
Fiber optics can transmit images (N) ..... Apr. 20 14
Glass fiber seen as key to commercial tires (D) ..... June 29 8
Glass fibers that stand 5000 F (D) ..... Apr. 20 9
Graphite fiber as a short-term, high-temperature heat barrier (to 5000F) (D) ..... June 22 35
Japanese polyvinyl alcohol fiber samples (N) ..... May 25 23
Names of fibers—a glossary of terms (N) ..... May 18 14
Teflon-glass cloth laminate (SP) ..... Apr. 6 47
Three new industrial fibers (D) . Mar. 23 7

Finishes, Chemical
Ceramic coatings that break circuits (D) ..... Jan. 19 13
Columbium and vanadium carbide may be the next hard refractories (D) ..... June 8 34
Paint for use to 1700 F (SP) . . . Feb. 2 71
Solderable tin-nickel coatings (D) ..... Apr. 6 11
Vacuum cadmium coating (SP) . Feb. 9 42

Finishes, Mechanical
Finishes and tolerances (A) .... Jan. 19 122
New finishes for zinc (D) ..... Jan. 12 9
Sintered-metallic materials for better brake linings (D) ..... Mar. 2 19

Finishes, Paint
Aluminum-silicone paint best protective coating for temperatures to 930F (D) ..... May 25 20
Luminous paints (D) ..... June 1 9
Nonradioactive phosphorescent paints (SP) ..... June 8 107
Zinc-rich paint (SP) ..... Feb. 16 79

Finishes, Plastic
Coating withstands 600 F (SP) . Feb. 23 42
Foamed silicones give hi-temp insulation. D. E. Weyer ..... Jan. 5 50
Nonstaining finish for vinyl (SP) ..... May 18 47
Plastic gun can spray chopped or continuous fiberglass rovings (N) ..... Mar. 16 28
Proper organic coating can protect metal parts in tropical environments (D) ..... Jan. 19 14
Spray-on Vinyl (N) ..... June 29 13
Thermal insulating coatings for 3000 F and above (D) ..... Jan. 5 22
Urethane coatings dry faster in new formula (D) ..... Apr. 27 20

Finishing
Chromallized clutch — reduced wear, longer life (N) ..... May 11 24
Finer finishes with new material made by impregnating nylon web with adhesive grains (D) ..... June 1 9
Sprayed structures—big boom (N) ..... Mar. 2 23
Use single nozzle spray gun with sprayed fiber glass (N) ..... Feb. 23 27
Vacuum deposit aluminum film (N) ..... May 25 23

Flexible Shafts
High-speed power-drive flexible shaft (SP) ..... Jan. 19 95

Fluid Mechanics
JIC Hydraulic Codes undergo up-dating (N) ..... Apr. 27 26
Rating fluid-control valves. J. J. Pippenger ..... June 22 80
Vickers' Hydraulic Meeting (N) ..... May 11 27

Fluids
Additives increase service life of synthetic fluids (D) ..... Jan. 5 22
Hydraulic fluids for the 700-F range (D) ..... Mar. 9 9
Lubricants and fluids for activating mechanisms may result from new starch derivative (D) ..... Apr. 27 20
Rubberlike materials for synthetic hydraulic fluids (A) ..... Feb. 16 116

Forging
Aluminum forging going after civilian market (N) ..... Apr. 20 29
Ductile beryllium forgings (N) . Apr. 6 25
Forging presses strength into lightweight castings. W. Rostoker . Feb. 16 61
Upset forgings now longer (N) . June 8 43
When aluminum forgings become practical. Erhard & Rebro ..... June 22 76

Friction and Wear
Bench wear tests in materials development (A) ..... Jan. 19 122
Better wear resistance for tungsten carbide (N) ..... June 8 44
Chromallized clutch — reduced wear, longer life (N) ..... May 11 24
Controlled explosive blasts hardness into steel. W. A. Harper .... Apr. 13 62
Effect of high temperature on friction (A) ..... June 8 136
Equipment reliability (A) ..... June 22 139
Friction on non-metals studied in England (D) ..... Jan. 26 8
Friction, wear and deformation (A) ..... Feb. 16 118
Relaxation for high-purity metals (D) ..... Mar. 30 19
Sintered plastic mix to reduce wear when nylon bearings are used with steel shafts (D) ..... Apr. 6 11
Solid lubricants for extreme pressures. A. Sonntag ..... June 22 64
Wear of lubricated surfaces—ASME Symposium Nicholas Chironis . Apr. 13 74

Fuel
ASME notes on fuel cell (N) . . June 22 41
Chemical fuel won't put man into space says missile expert (N) ..... Mar. 2 24
Fuel cells come closer to commercial utilization (D) ..... Jan. 5 21
Fuel cells as key to transport problem (N) ..... June 29 32
Storable liquid propellants (D) . June 22 37
"Storable" propellants — compatibility is a requirement of materials specifications (D) ..... Feb. 16 20

— G —

Gaskets
How gaskets behave. E. M. Smoley ..... May 25 40
12 ways to retain gaskets. F. W. Wood, Jr. (DR) ..... Feb. 2 64

Gears
ASLE's Gear Symposium—emphasis is on experimental methods ..... Feb. 16 64
Another 12 unusual gearing devices. Federico Strasser (DR) ..... Apr. 13 78
High-temperature gear operation (A) ..... Apr. 27 107
Lignum-vitae — old-timer still going strong (N) ..... June 8 44
Miniature slip-clutch gear (SP) ..... June 8 107
Lubrication of high-speed gears (A) ..... Mar. 30 88
New equations locate dwell position of 3-gear drives. Dr. J. Hirschhorn ..... June 8 80
Record gear ratios. Sigmund Rappaport ..... June 22 67
Right-angle gear system (N) . . . June 8 42
Self-broaching shaft for gears. W. J. Opocensky ..... Feb. 2 47
Single-plate gear trains: 11 ways to mount shafts. F. W. Wood, Jr. (DR) ..... Jan. 5 68
Spur gears made of nylon (A) . . Jan. 5 93
Titanium gears outlast steel (D) ..... Feb. 2 13
12 special gearing devices. Federico Strasser (DR) ..... Mar. 30 64
Workable approach to gear tolerances. W. A. Wiegand ..... May 25 52

Generators
Arc-plasma generator designed (N) ..... June 29 28
Electric generators heat Austrian buildings (N) ..... Jan. 5 27
Emergency generating set (D) . Mar. 16 25
5-lb atomic generator wins miniaturization award for '58 (N) ..... Mar. 30 23
Small generator may light entire cities (N) ..... May 18 26
Thermoelectric generators that use radioisotopes (D) ..... Feb. 9 9

Glass
Fine-lined patterns in glass (D) ..... Feb. 16 20
Glass fiber seen as key to commercial tires (D) ..... June 29 8
Glass fibers that stand 5000 F (D) ..... Apr. 20 9
Glass reinforced plastic rival steel and aluminum (D) ..... Feb. 23 7
Stronger glass promised by recent lab tests (N) ..... Feb. 23 14

Government
Aircraft and rocket nuclear-propulsion research site selected (D) .... June 15 13
Air Force designing container to send 150-lb payload on roundtrip space flight (N) ..... Mar. 16 32
Air Force make-or-buy contract regulations under attack (D) ..... Feb. 9 13
Air Force wants heavy presses to help make missiles (N) ..... Jan. 12 30
Atomic patent case—J. S. Spevack vs. AEC (D) ..... Mar. 23 11
Atomic patent case—Supreme Court refuses to rule (D) ..... Apr. 6 13
Copyright laws for technical information may be stiffened (D) . . Feb. 23 11
Defense Dept. opens doors to imaginative thinking (D) ..... May 18 11
Defense money for materials research (D) ..... Feb. 23 11
DOD handles NASA security clearances (N) ..... June 22 38
Draper, Dr. C. S. of MIT chosen to head National Inventors Council (N) ..... May 11 25
Federal council for science and technology created (D) ..... Jan. 12 11
FTC relies on technical testimony turns deaf ear to consumer in case against Elvis Mfg. Co. (N) ..... Apr. 27 24
Geographic restrictions sought on defense contracts (N) ..... June 8 37
High-energy accelerators get top-level attention (D) ..... June 1 13
Kistiakowsky, Dr. George Bogdan—new science adviser is a scientist (N) ..... June 15 26
Let's form a committee (P) .... Apr. 13 55
Military R&D coordination still sought; may be one way to reduce weapon design obsolescence (N) ..... June 14 23
Missile spending up for one, down for two (D) ..... June 29 11
Motor vehicle design may come under Federal scrutiny (D) ..... May 4 9
NASA assigns basic research contract to universities (N) ..... June 8 37
NASA assigns $10 million in contracts (N) ..... May 11 26
NASA developing new space vehicles (D) ..... Mar. 9 15
NASA names committee to deal with 'long-range' space matters (N) ..... June 1 25
NASA R&D contracts let (D) . . Mar. 9 15
NSF to register scientists and engineers (D) ..... June 15 13
Navy's Bureau structure—major reshaping (D) ..... Apr. 6 13
Navy unveils ocean-bottom program (D) ..... Apr. 6 13
Patent policies — corporation policies more lenient than those of Uncle Sam (N) ..... June 8 35
Patent policies of government agencies under study (D) ..... Feb. 23 11

(A) Abstract. (D) Developments. (DR) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (PV) Points of View.
(RS) Reference Book Sheets. (SP) Significant Parts. (T) Trends in Appearance Design.

Patent policy problems: expanded government sponsored R & D programs point up inequities (N).....May 4 15
Pentagon names Dr. H. F. York to unsnarl defense R & D (N)..Feb. 2 19
Planes built to use existing airports say FAA (D).....June 15 13
R & D defense dollars will be added to US budget (N).....Feb. 2 18
Science and politics don't mix . . . or do they? Koff & Park.....June 1 28
Secrecy in science slows down development says Nobel Prize winners (D).....June 29 11
Service R & D policies to be studied (D).....Feb. 9 13
Short-term renegotiation act extension to be voted by Congress (D).May 18 11
Small, nuclear-powered subs may be endorsed (D).....May 4 9
Space age budget plans outlined to Congress (D).....Mar. 9 15
Space-missile field will dominate Washington scene (D).....Jan. 26 8
State Dept. names US science attaches to six countries (N).....Jan. 5 25
Tariff Comm. will not try to determine foreign patent validity (D)...June 1 13
U. S. Dept. of Science unlikely before 1961 (N).....Apr. 27 26
US shift to metric system (D).May 18 11
Weapons reliability blasted by Congressional Committee (D)....Apr. 20 13

Graphical Techniques
Alloyed plastics give oilless bearings. H. Clay Mellor.....May 25 58
Buckling in hydraulic tubing. W. H. Cooley .....May 11 71
Carpet plotting—new way to display high-temperature materials data. Alexander Krivetsky .....Jan. 5 60
Cavitation in positive-displacement pumps. W. E. Wilson.....Mar. 2 47
Failure diagram for fluctuating stress. M. F. Spotts.....Feb. 16 66
Graphical synthesis of four-bar linkages. R. T. Hinkle.....Feb. 2 40
How fan and output vary with size. I. J. Roy (RS).....Apr. 13 81
Mixed-flow impellers enter air-moving field. C. A. Hathaway.....Jan. 5 56
Nomograph for changes in fan speed. I. J. Roy (RS).....Mar. 30 67
Partially loaded continuous beams. Alexander Krivetsky (RS)...Mar. 16 73
Roll cams: they stop and go on demand. A. C. Dunk.....Jan. 19 68
Shafts: 5 steps find . . . strength and deflection. Charles Tiplitz (RS) May 11 91
Shape of pin-connected linkages. Potts & Liddicoat (RS).....Apr. 27 71
Shock tests for rough handling. J. T. Swinn, Jr. .....May 11 74
V-belt drives — stronger, narrower. W. S. Worley.....Apr. 13 72

Grinding
Centerless grinder from Italy (T) Feb. 23 35
Redesign grinder with better looking, low-cost (PD) .....Jan. 19 72
Revolving drum saves abrasive belts (PD) .....June 8 85

— H —

Hardening
Controlled explosive blasts hardness into steel. W. A. Harper....Apr. 13 62
Temperatures from 250 F to 2050 F created in furnace for atmosphere hardening (N) .....May 18 24

Heat Transfer
Liquid metal package heat transfer loop (N) .....Mar. 2 21

Human Engineering
Designing control consoles. Peters & Adams .....Apr. 13 64
Driving simulator (N).....Apr. 6 27
Earth mover designed around operator (T) .....Apr. 6 38
Handyman—slave arms getting closer to human motions (N).....Mar. 30 21
Readable panel markings—3 criteria. Peters & Adams.....May 25 55

— I —

Illumination
Air-operated safety light (D)..Apr. 27 19
Double-lighted pushbutton (SP) Feb. 16 79
Light scans thickness of material (PD) May 25 51
Two jobs for light—profile blades; counts flowing liquid (PD)..May 11 80

Industrial Design
A-powered icebreaker (N).....Mar. 2 25
Adding machine (T).....Feb. 23 35
Burglar alarm that calls the police (D) Mar. 9 13
Denmark—trends in appearance design. Erik Herlow (T).....June 1 34
Does America have a design heritage? (PV) .....May 18 35
Faucet with fingertip dial (T).June 29 34
Flush toilet—ball cock valve puts pressure to work for tight seal (PD) May 11 78
Food machines compared—German and Soviet (T) .....Apr. 30 28
How much appearance design does a product need? Montgomery Ferar (T) .....Mar. 23 28
Indicating dial (T).....June 15 43
Industrial designer eyes the design show, Joseph Carreiro (T)..June 15 42
Italian designs (T).....Feb. 23 34
Japan—trends in Japanese design (T) Jan. 12 38
Lawn mower—floating cutter gives grass a fine shave (PD).....Mar. 16 60
Locomotive, diesel electric from Japan (T) .....Jan. 12 38
Locomotives—European train designs leave US behind (N).....May 18 21
Locomotive, French, of glass-reinforced polyester (N) .....Mar. 23 19
Locomotive runs on energy stored on flywheel and converted to electric power (PD) .....Mar. 16 58
Locomotive shifts gears (PD)...Jan. 5 53
Locomotives—USSR announces gas turbine locomotive (N).....Mar. 16 30
Low-range pressure pickup (SP) May 18 47
Mechanical mockup kit (N)....June 8 48
Multi-message display, lens-less (SP) Mar. 9 57
Nondirectional textured metal (SP) Apr. 27 75
Norway—trends in appearance design. H. E. Jorner, ME (T).....June 1 35
Positioning systems, high-speed (SP) May 25 69
Printer robot (PD).....Mar. 16 59
Radar displays for small-boats (T) Feb. 9 4
Railcar suspension cuts weight, adds comfort (N) .....Apr. 6 24
Recorder—first wire recorder still works (N) .....Mar. 16 30
Resistor, light-sensitive (SP)...June 1 36
Rice cooker, automatic from Japan (T) Jan. 12 39
Rice polisher, Japanese (T)....Jan. 12 39
Saw, portable annular (T).....Feb. 23 35
Scale, Japanese (T).....Jan. 12 39
Scale, weighing (T).....Mar. 9 49
Snow-melter, oil-burning (D)..Jan. 12 9
Soviet journals pour out the news—a review of recent engineering developments described in USSR publications (N) .....Jan. 12 23
Speed reducer, self-cooling (T) June 15 42
Speed regulator, double-ended (T) June 15 43
Swallowed mirror guides tube-straightener (PD) .....May 25 49
Tape recorder, world's smallest (D) Feb. 16 20
Train—Russia tries spherical wheels (N) .....Jan. 12 25
Train—"sonic sliding rocket" train under development in Japan (N) June 29 26
Trip-free mechanisms (A).....Apr. 13 125
Typewriter, teleprinter, unitized (N) June 1 26
Water heater, gas-fired (T)....Feb. 23 34

Instrumentation
Altimeter gives faster readout, more accuracy (PD) .....May 11 79
Automatic car-park exhibited in Paris (N) .....Apr. 13 41
Automation may serve USSR consumer (N) .....June 15 30
Building-block hydraulic servos (N) June 8 46
Chinese industrialization based on improvisation (N).....Apr. 6 26
Counter, precision, uses planetary gear drive (SP) .....Feb. 9 42
Counting circuits that measure in "lightfeet" (D) .....Mar. 30 20
Device anticipates changes in temperature and pressure (D).....June 22 35
A differential pressure gage for use with corrosive fluids (D)...May 11 21
Dome-shaped piston measures pliability of samples (D).....Apr. 13 36
Flavor-measuring instrument sorely needed (D) .....Mar. 9 10
Gage measures irregular surfaces (N) June 29 29
Gages, epoxy-back foil strain (SP) June 1 36
Instrumented nose cone packed solid with equipment (D).....Feb. 9 11
Jet drone electronics (N).....June 29 31
Light scans thickness of material (PD) .....May 25 51
Machine duplicates human behavior in manufacturing process (N)..Jan. 12 23
Machine translating Chinese (N) Feb. 2 20
Magnetic compass transmits its readings to repeater instruments (N) Jan. 12 25
Mail sorter—magnetic coder tested for automatic mail sorter (N)....Mar. 9 25
Modulated-air speakers (D)....May 25 19
Needed: measurement specialists (D) Feb. 2 37
Oscilloscope (T).....Mar. 9 49
Pravda describes space vehicle instrument package (N).....Jan. 26 21
Probe measures corrosion (SP)..Apr. 6 47
RR car identification system (N) Mar. 30 20
Readable panel markings—3 criteria. Peters & Adams.....May 25 55
Russians automating their bearing plants (N) .....Jan. 19 18
Satellite detection "fence" (D).Feb. 23 11
Space range, or chain radar instrumentation system for testing X-15 (N) Mar. 16 31
Static-control modules (N).....June 8 45
Surface-temperature probe (SP) Feb. 16 79
Soviets develop mechanized reading (N) .....Feb. 9 27
Temperature programming (N).June 8 48
Thermostat, compact (SP).....May 11 156
"Thin-film optics" new devices for heat control, wear measurement (D) Jan. 19 14
"Total-temperature measuring instrument" (D) .....Mar. 2 19
Where are the planets? New measurements of robots, size (N).....Feb. 9 14
World weather system passes first tests (N) .....June 1 27

Insulation, Electrical
Wire insulation for high temperature, short life (N).....Feb. 23 14

Insulation, Thermal
Ceramics used to insulate structural parts (N) .....June 29 30
New foamed silicones give hi-temp insulation. D. E. Wever.....Jan. 5 50
Rubber-asbestos combination makes lightweight insulation (N)...June 15 32
Thermal insulating coatings for 3000 F and above (D).....Jan. 5 32

Iron
Rupture data for malleable (N) June 22 40
Wrought iron alloy (SP).....May 18 47

— J —

Joining
Assembly methods . . . an engineering roundup—report, D. C. Greenwood June 8 91
Ball-joint design (SP).....June 22 93
Bushings have adjustable radial dimensions (SP) .....June 29 38
11 ways to couple tubes. F. W. Wood, Jr. (DR) .....Mar. 16 70
Frictionless universal joint smooths wobble of bobbin (PD).....June 22 70

Joining see also **Fastening**

— L —

Linkages
4-bar linkage unfolds stairway to transport plane (PD).....June 22 71
Graphical synthesis of four-bar linkages. R. T. Hinkle.....Feb. 2 40
Shape of pin-connected linkages. Potts & Liddicoat (RS) .....Apr. 27 71
Space crank . . . a new 3-D mechanism. Predale & Hulse, Jr.....Mar. 2 50

Lubrication
Analysis of lubrication deposits (A) Mar. 16 115
ASLE's gear symposium—emphasis is on experimental methods....Feb. 16 64
Automatic grease cup (SP)....Mar. 16 77
Chain lubricators (SP).....Feb. 2 71
Compensated grease flow (SP).Mar. 16 77
Dry-film lubricants that won't rub off (D) .....Apr. 27 19
Fluorester lubricants (A).....Feb. 16 118
Greases for 700-F service available (D) June 8 33
Improved lube oils and greases (D) Mar. 16 26
Lubes for LOX systems (D)....Jan. 19 13
Lubricants and fluids for activating mechanisms may result from new starch derivative (D).....Apr. 27 20
Lubricants for the 1800-F range come a step closer as result of study to develop better bearings for "space ships of the future" (D).....Mar. 16 25
Lubrication of high-speed gears (A) Mar. 30 88
Lubricator-filter-regulator (T).June 15 42
Multi-purpose greases produced with calcium-salt thickeners (D)..June 1 9
New lubrication system (N)....June 8 42
Oil consumption in a diesel (A).Feb. 2 87
Oxidation of gear lubricants (A) Feb. 2 87
Solid additives in fluid lubricants (A) May 25 94

(A) Abstract. (D) Developments. (DR) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (PV) Points of View.
(RS) Reference Book Sheets. (SP) Significant Parts. (T) Trends in Appearance Design.

Solid film lubricant (SP).....Jan. 19 95
Solid-film lubricants for over 1000F (A) Feb. 16 118
Solid lubricants for extreme pressures. A. Sonntag .....June 22 64
Space vehicle lubrication problem challenges design engineer (N)...Jan. 19 17
Stable lubricants can be developed for high-temperature use (D)....Feb. 2 14
Wear of lubricated surfaces—ASME Symposium. Nicholas Chironis Apr. 13 74

—M—

Machining
Abrasive finishing machine that has new handling method (D)....Feb. 9 9
Air clamping cuts machining time (N) Jan. 19 18
Centering devices from Sweden and Russia (D).....June 15 11
Chinese industrialization based on improvisation (N).....Apr. 6 26
Custom drillheads from stock parts (PD) .....Jan. 19 75
Design factors affecting machine efficiency (A).....May 25 94
Designing to reduce downtime (A) Jan. 5 93
Drill, air-operated (T).....Feb. 9 40
Electromachining speeds its attack—Japanese spark machine. H. L. Kee Mar. 2 59
Floating spindle absorbs backlash in copy milling head (PD).....May 25 50
GE redesigns 2 machine tools for numerical control (N).....Jan. 19 16
Hydro-pneumatic machine-tool system (D) .....Feb. 2 13
Largest static control system described at machine tool forum (N)...Apr. 27 21
Lathe is all-welded for rigidity, modular for flexibility (T).....June 29 34
Lathe packaged for easy adjustment (PD) .....Jan. 5 54
Leipzig Fair highlights machine-tool exhibits (N).....Apr. 13 38
Machinability of metals (A).....Jan. 5 93
Plastic laminates for punching. E. C. Graesser .....Feb. 2 57
Polishing-deburring machine gives spinning parts a rubdown—inside and out (PD).....Feb. 2 50
Red China heavy machine tool output rise seen (N).....May 4 16
Rivets fit closer, go in easier (PD) Feb. 2 48
Shear—swinging shear slices sheet squarely (PD).....Jan. 5 55
Transfer-and-drilling machine (PD) Feb. 2 51
Ultrasonic energy can be "piped" around corners (D).....Feb. 2 14
What major technological advances do you foresee in your industry during the next five years? (PV)..Feb. 9 38

Magnesium
Magnesium alloys (A).....June 8 139

Magnets
Barium ferrite magnets (D)....Apr. 13 36
Compass transmits readings to repeater instruments (N).....Jan. 12 28
First wire recorder still works (N) Mar. 16 30
Magnet checks tubing bore (PD) Jan. 5 52
Magnetic coder tested for automatic mail sorter (N).....Mar. 9 25
Magnetic inspection at 400 to 1000 parts an hour (D).....Jan. 5 21
Magnetogenics rates support (N) June 29 12

Management *see* **Engineering Administration**

Materials Handling
Handyman—slave arms getting closer to human motions (N).....Mar. 30 21
Hydraulic lifting table, portable (D) Jan. 12 12
How to lick spring tangling. R. O. Johnson .....June 22 74
Plastic container becomes half-size on return trip (PD).....Mar. 30 44
Small-parts feeder device (SP)..June 1 36

Mathematics
Critical tables (A).....Apr. 13 125
Dynamic programming—a new tool for maximization. G. F. Hadley..May 11 84
Gear-tooth index error. H. R. Ronan Jr. (RS).....Jan. 19 91
Numerical integration simplifies complex design. E. E. Ungar....Mar. 16 50
Numerical integration works with dynamic systems to. E. E. Ungar Apr. 27 64
Shortcuts to powers and roots. Dr. B. N. Ghosh (RS).....Mar. 30 69
Simplifying Boolean functions (A) Mar. 2 89
Subjective measurements (A)...Feb. 2 87
Universal tables for circular segments and sectors. R. Huber (RS)..Feb. 16 72

Metals, Ferrous
Costs—how cost patterns will change (N) .....May 18 14
Heat-emissive lead compounds (D) Mar. 9 9
Lead—fiber-reinforced lead (D)..Apr. 6 9
New processes to make familiar materials (N).....Feb. 9 16
Scarce materials down from 74 to 9 (N) .....June 29 13
Solutions of the metallurgist (A) June 8 139

Metals, Ferrous *see also* **Iron and Steel**

Metals, Nonferrous
Beryllium—ductile beryllium forgings (N) .....Apr. 6 25
Beryllium extrusions should be easier to get (D).....Feb. 16 19
Beryllium hurdles tests as structural material (N).....June 22 39
Beryllium—thermitic cermets made with beryllium (D) .....Mar. 2 20
Cadmium as a sem.conductor (N) Jan. 12 18
Chromium process improves corrosion resistance (N).....June 15 28
Cold war in hot alloys—US vs USSR reactor materials (N).....Mar. 9 16
Columbium-alloy, high-strength (N) June 8 45
Columbium-base alloys (SP)....May 25 69
Columbium—more-ductile columbium at low cost (D).....May 4 7
Costs—how cost patterns will change (N) .....May 18 14
Exotic metals—more data (D).June 15 14
Hafnium carbide—next electrical structural material? (N).....Feb. 9 16
High alloys for higher temperatures (N) .....Apr. 20 16
Lithium compounds that can "solubilize the insoluble" (D).....May 25 19
Mica, sintered (N).....June 8 43
New "hardmetals" can be made (D) June 22 36
Nickel castings get new specifications (N) .....Apr. 6 16
Organometallic boosters for plastics, paints and jet fuels (D).....May 4 7
Portable sodium melter for servicing power reactors (D).....June 15 8
Pyrometallurgy: new engineering tool (N) .....June 1 14
Refractory metals safeguards. A. F. Busto .....May 25 43
Rhenium: guinea pig for alloy development? (N).....Apr. 6 14
Scandium will be next "new" metal (D) .....Jan. 19 13
Scarce materials down from 74 to 9 (N) .....June 29 13
Silicon alloys can replace beryllium (D) .....May 11 22
Silver solves product design problems (N) .....Mar. 9 18
Solutions of the metallurgist (A) June 8 139
Stronger, harder alloys coming from particle studies (D).....Feb. 9 9
Tungsten is deep-drawn and extruded (N) .....Apr. 6 16
Zinc—new finishes (D).....Jan. 12 9
Which will be metal-of-the-year?—the transition group (N).....Jan. 12 18
Yttrium—another up-and-coming metal (D) .....May 11 21

Metals, Nonferrous *see also* **Aluminum, Copper Magnesium, Titanium**

Meters
Ac voltmeter for 0 to 2 cycles per second (D).....Feb 9 11
Centrifugal micromanometer (A) Jan. 5 93
Contact-making ammeter (SP).Mar. 30 71
Flowmeter counts flowing liquid (PD) May 11 81
Level-sensing potentiometer (SP) June 29 38
Lightmeter for motion pictures (T) Jan. 12 39
Miniature control meter (SP) .Mar. 16 77
Torquemeter (N) .....June 8 48

Missiles
Antenna dish comprises radar assembly and radome (N).....May 4 16
ARPA defines "military" space (N) Apr. 6 26
Army to fire supplies by missile (N) June 8 38
Canada'ir expands design facilities to get US work (N).....June 22 40
Dayton Metal Products—contract for first long-range guided missile—story on report of original project—dateline—40 years ago (N).....Jan. 5 23
Develop missile loader for Navy (N) June 1 22
Five NATO nations to spend $500 million for US-designed missile (N) Feb. 9 27
"Handy-man" satellite described (N) Mar. 16 30
Lunik—design details from Russia (N) Feb. 2 15
Lunik design—Soviets reveal more details (N) .....Feb. 16 22
Minuteman missile program (N) Feb. 9 25
Missile mail delivery not much faster than jets (D).....June 29 11
Polaris-carrying sub—tribute to design ingenuity (N) .....Feb. 23 21
Polaris has heat problem (N)..Feb. 16 22
Polaris missile solid-fueled (D)..June 1 12
Printed circuit in missile saves weight, production time (N).....Mar. 16 27
SAE forms new specication group for missile industry (N).....Jan. 12 25
Satellite detection fence for southern US (D) .....Feb. 23 11
Soviets mass produce infrared guided missile (N) .....Mar. 2 21
Space-missile field will dominate Washington scene (D).....Jan. 26 8
Thor IRBM—why countdowns take so long (PD) .....Mar. 30 42
Thor production line (N).....Feb. 16 25
Titan ICBM's on a prototype (N) Mar. 2 24
US to bolster Japanese industry—some day (N) .....June 22 39
U. S. Navy "officially" announces sub to launch Polaris missile (N).Feb. 16 25
Wallops Island, Va.—a new look at newest US missile test center (N) Apr. 20 24

Mobile Equipment
Aluminum amphibious carrier (N) June 8 36
Crane strips for travel (PD)...Mar. 2 56
Earth mover designed around operator (T) .....Apr. 6 38
Missile loader for the Navy (N)..June 1 22
Navy beaching vehicle (N).....Jan. 19 15
Roller (T) .....June 29 35
Soviet plow (D).....June 29 9
System package concept (N)...May 18 23
Tractor tools adjusted on the move (PD) .....Jan. 19 74
World's largest tire for proposed line of earthmovers (N).....May 11 26

Molding
Bigger nylon parts with extrusion-molding process (D).....Feb. 16 19
Linear polyethylene moldings. R. B. Davidson .....Mar. 16 55
Speedier molding by revolving drum (PD) .....Jan. 19 73

Motors
Ac motor with dc stator excitation has adjustable speed (D).....Feb. 23 8
All-purpose motor as teaching aid (N) May 4 21
Aluminum replaces copper in large rotor (N) .....Mar. 23 19
Design your own dc motors with printed circuit rotors. Burr & Swiggett .....Mar. 16 64
Electric motor with reciprocating armature (N) .....Apr. 6 27
Fluid-flow motor control (SP)..June 15 47
Fractional-hp motors, designed in England (D) .....Jan. 12 12
Horizontal motor for more headroom for vacuum cleaner (PD)....Mar. 16 60
"Megaboom" — solid-propellant rocket motor (N) .....Mar. 16 29
Miniature dc micromotor uses rolling commutating system; ups efficiency (N) .....Jan. 12 30
Novel air motor (N).....June 8 46
Radial-airgap motor (SP).....May 4 35
Right-angle gear motor (T)...June 15 43
Speed control of ac motors (A).Mar. 2 89
Submersible motors (N).....June 8 45
Synthetic oil insulates small motors (D) .....June 15 11
Torque problems (A).....Apr. 13 125
Unitized motors that dispense entirely with standard fasteners (D)..Apr. 13 35
Variable-speed ac motor (A)...Apr. 13 125
Which Fhp motor for the job—report. N. L. Morgan.....Jan. 19 76

—N—

Noise
Develop method to test resistor noise quality (N) .....Mar. 23 19
Fabric for deadening noise (D) Jan. 12 9
Noise (A) .....May 25 97

Nucleonics
A-powered icebreaker (N).....Mar. 2 25
Asymmetrical heating poses problems for nuclear engineers (D)....June 8 34
Atom power from active pebbles (N) May 18 12
Atomic nucleus to get periodic table (N) .....June 1 14
Atomic patent case—Spevack vs. AEC (D) .....Mar. 23 11, Apr. 6 13
Atomic reactor designs weeded out by AEC (D) .....June 29 11
Atoms aid conveyor studies (D) Mar. 30 20
Atoms and thermocouples add new power (N) .....Feb. 9 14
Cold war in hot alloys—US vs. USSR reactor materials (N).....Mar. 9 16
Cyclotron has more power in smaller package (N) .....Jan. 26 21

(A) Abstract. (D) Developments. (DR) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (PV) Points of View.
(RS) Reference Book Sheets. (SP) Significant Parts. (T) Trends in Appearance Design.

Dating (time-lapse measurement) systems (D) ....Apr. 13 36
Design holds the key to nuclear aircraft (D) ....Feb. 23 7
Fermi's nuclear fission patent just released (N) ....Apr. 20 14
Fusion power awaits better heat shielding (N) ....Jan. 12 14
Future remote for A-fuel processing (N) ....Jan. 12 28
Germans emphasize special designs for ultrasonic flaw detection (N). Mar. 30 24
Germany developing A-powered ship (N) ....Mar. 9 29
Homogeneous reactor tested with gold-plated structure (N) ....May 4 10
Isotope power is making progress (D) ....Feb. 23 7
Nonnuclear uses for uranium studied (N) ....May 4 17
Nuclear batteries coming (D)...June 1 9
Oceans will supply our future materials needs (N) ....Mar. 9 18
Private nuclear-powered merchant ship to try new design, test concept (N) ....Mar. 9 29
Process control by nuclear magnetic resonance spectroscopy (N)..Jan. 26 12
Radioactive drill locates coal (N) ....Mar. 2 22
Russian scientists find radiation belt less intense (N)....Mar. 23 20
Simulation for entire plant will be installed at new Berkeley power station, London (N)....Jan. 19 17
Small, nuclear-powered subs may be endorsed (D) ....May 4 9
Taming tomorrow's power sources. A. R. Gardner....May 4 28
Test large operating equipment during irradiation (N) ....Feb. 16 21
Ultrasonic energy can be "piped" around corners (D)....Feb. 2 14
Ultrasonics bonds aluminum (N) ....May 4 16
Uranium converts heat to electricity (N) ....May 4 10

Paper

Improved fungicides open new applications for paper (D)....Feb. 9 9
Paper that's even stronger wet than dry (D) ....Mar. 9 13
What's new about the new papers. A. R. Gardner....Feb. 16 50

Patents

Atomic patent case—J. S. Spevack vs. AEC (D) ....Mar. 23 11
Atomic patent case, Spevack vs. AEC—Supreme Court refuses to rule on case (D) ....Apr. 6 13
Canadian Patents and Development Ltd. — government-owned marketing company (N) ....June 8 44
Company, employe-inventor relations improving (N) ....June 8 35
Fermi's nuclear fission patent just released (N) ....Apr. 20 14
Foreign patent rights denied to US sponsored research (D)....May 4 9
Foreign patent validity not problem of tariff commission (D)....June 1 13
NASA to hold public hearings on patent policy (D) ....Apr. 6 13
National Patent Development — new merchandising company (N)..June 22 40
Patent policies of government agencies under study (D)....Feb. 23 11
Patent policy problems: expanded government sponsored R & D programs point up inequities (N)....May 4 15
Patent pool closes Canadian market to U. S. (N)....Jan. 19 17
Renewal fees: an answer for the patent office? (P) ....Mar. 30 39
US firm wins patent case in Japan court (N) ....Apr. 20 30
Welcome inventors. Jack Meeyr..Mar. 9 37
What happens to patent applications? T. L. Brown....Apr. 20 33

Photography

Camera, Japanese (T)....Jan. 12 39
Color TV projector (D)....Jan. 26 7
Fast camera feeds film from hopper (PD) ....Mar. 2 54
Fluorescent spray technique for photographic studies (N)....Apr. 6 14
High-speed motion picture camera (N) ....Mar. 9 16
Japanese motion picture projector (T) ....Jan. 12 38
Light-control wins an Oscar (PD) ....Mar. 16 59
Microfilm enlargements race through automated darkroom (PD)...Apr. 13 66
More on PhotoStress. Peter Stein. reply by Dr. F. Zandman....June 8 79
Nondestructive test allows visual examination of turbine blade (PD) ....May 11 80
Photomicrograph — new method of measuring strain (N)....Mar. 2 21
PhotoStress analysis. Dr. Felix Zandman ....Mar. 2 43
PhotoStress extended to direct reading (N) ....May 18 22
Printing and reading machines (D) ....Jan. 26 7
Static electricity prints photos (PD) ....June 8 82
Structural vibration — an oscilloscope tells the story in pictures. Wilbur Du Bois ....Feb. 2 52
Subminiature light-sensitive silicone diode (SP) ....Mar. 9 57
Test for oxidation resistance of superalloys. Rod Simenz....Apr. 27 48
X-ray spectograph (T)....Mar. 9 48

Piping

Air-line regulator (SP)....Feb. 2 71
Heavy-end aluminum pipe (PS) ....Jan. 5 75
Pneumatic pipeline to transport wood products (D) ....June 15 11
Thinner walls reduce weight and price of aluminum pipe (SP)....May 11 158

Plastics

Alloyed plastics give oilless bearings. H. Clay Mellor....May 25 58
Aluminum powder increases plastic strength (D) ....June 15 11
Color-coding plastic parts (SP)..Jan. 12 43
Conductive PVC (SP)....Feb. 2 71
Container becomes half-size on return trip (PD) ....Mar. 30 44
Cost patterns—a 10 year review (N) ....Jan. 12 18
Creep-resistant plastic costs less than nylon (N) ....May 18 21
Cushioning material of Teflon embedded in matrix of silicone rubber (D) ....Mar. 2 20
Fabric for deadening noise will be tried out on jets (D)....Jan. 12 9
Fiber-resin laminate systems — reinforcement (A) ....Mar. 16 111
Flame-retardant laminates (N) ....June 8 44
Flexible silicone covers (SP)...May 25 69
Foamed alumina (N)....June 8 44
Foamed plastic sandwich panels. Jones & Hersch ....Apr. 13 69
Foamed plastic "smoke"—clouds of foamed particles (D)....Apr. 27 19
Foamed silicon carbide (D)...June 29 8
Foamed silicones give hi-temp insulation. D. E. Wyer....Jan. 5 50
Fungicide for plastics (D)....Mar. 30 19
Furfuryl resin for protective coatings (D) ....Apr. 13 35
Hard, translucent plastics (D)..June 22 35
Hardness, abrasion, wear resistance (A) ....Mar. 16 111
High-modulus glass-reinforced plastics (D) ....Feb. 23 7
High-precision cast plastic mirrors (D) ....Feb. 23 7
High-range plasticity of metals (A) ....Jan. 5 93
Hi-temp properties of reinforced plastic (A) ....Mar. 16 111
How some materials beat the heat (N) ....Feb. 9 14
Kralastic K-2590 — new material to challenge nylon (N)....May 4 11
Largest plastic yacht shown at annual British Boat Show (N)....Feb. 2 18
Library on plastics....Jan. 5 51
Linear polyethylene moldings. R. B. Davidson ....Mar. 16 55
Measuring flammability of plastics (A) ....Mar. 16 111
Molded Delrin plastic fasteners (N) ....June 8 46
New processes to make familiar material (N) ....Feb. 9 16
Nuts and bolts have integral plastic collar (D) ....June 29 9
Nylon—bigger nylon parts with extrusion-molding process (D)....Feb. 16 19
Nylon 11 has good electrical properties (N) ....June 29 13
Nylon-like gum plastic (SP)...May 25 69
Nylon's tough new rival. M. S. Thompson ....June 8 76
One-side heating may pose far more severe design problems (N)..Mar. 30 20
Pipe coupling protects tube ends (N) ....Apr. 6 25
Plastic gun can spray chopped or continuous fiberglass rovings (N) ....Mar. 16 28
Polybutylene to be produced in Italy (D) ....June 1 11
Polycarbonate resin that stands—150 to 243 F (D)....Mar. 23 9
Polyethylene molding material (SP) ....June 22 93
Polypropylene and caprolactam — new resins (N) ....Mar. 23 13
Price cuts (N)....Feb. 9 16, June 1 25
Prices—lower prices for resins, refrigerants, fibers and finishes predicted (D) ....Feb. 2 14
Rapid loading of plastics (A)...Feb. 2 87
Rigid thermoplastics (A)....June 8 136
Rotary switch with plastic innards (N) ....Mar. 23 23
Selecting plastic laminates for punching. E. C. Graesser....Feb. 2 57
Semiconductors of plastic claimed by Soviets (D) ....May 18 9
Shrink-fit thermoplastic (SP) May 11 156
Silicon carbide—newest structural material (D) ....Mar. 2 20
Single nozzle spray gun used with sprayed fiber glass (N)....Feb. 23 27
Sintered plastic mix to reduce wear when nylon bearings are used with steel shafts (D)....Apr. 6 11
SPE Annual Technical Conference, Jan. 27 30—papers (A)....Mar. 16 111
SPI 14th Annual Meeting of Reinforced Plastic Div. papers (A)....Mar. 16 115
Soviet plastics R & D in high gear, but large scale production is some distance away ....Feb. 9 23
Spray-on vinyl (N)....June 29 13
Sprayed structures—big boom (N) ....Mar. 2 23
Stearate beefs up plastics and paints (N) ....Mar. 9 18
Structural differences seen by electron microscope (N) ....June 15 14
Teflon-glass cloth laminate (SP) ....Apr. 6 47
Terminology available from manufacturers (N) ....Jan. 26 13
Thermosetting-plastic bearing material with lubricant built in (D)...Mar. 9 9
Three-component plastics make versatile compounds (N)....Apr. 20 16
Transparent plastic stress analysis (N) ....June 1 14
Transparent plastics improved (D) ....Mar. 23 7
Two on reinforced plastics (A)..June 8 136
Urethane foams, flame-resistant (N) ....May 4 22
Urethanes and sand (N)....June 8 44

Plating

H_2 embrittlement licked (N)...June 8 45
Peen plating (N)....June 8 45

Pneumatics

Hydro-pneumatic machine-tool system (D) ....Feb. 2 13
Mixed-flow impellers enter air-moving field. C. A. Hathaway....Jan. 5 56
"Muffin"—new axial-flow fan (N) ....Mar. 2 24
Pneumatic breakwater counters waves with air bubbles (D)....Jan. 12 12
When air is the coolant. Mrs. B. O. Buckland ....Feb. 16 54

Powder Metallurgy

Investment casting — or sintered powder? L. E. Raymond....June 8 86
Metal-coated metal and ceramic powders (D) ....Feb. 23 8
Powder-metal bars—made thicker (N) ....May 4 19
Powder metallurgy can compete with stamping for many thin parts. John Haller ....May 11 82
Powdered-metal parts properties depend on porosity (D)....Mar. 9 10
Powdered metals compacted by explosives (D) ....June 1 11
Prealloyed metal powders (A)..May 25 94
Pressed-metal method seeks backer (N) ....June 29 27
Sintered-iron powder mixture—1200 F anti-friction material announced (N) ....Jan. 26 20
"Sweat-cooled" materials (D)..Mar. 23 9

Power Sources

Chemical-to-electrical energy conversion for power generation (D) ....June 15 8
Dyes convert solar into electrical energy (D) ....Jan. 12 9
Fuel cells as key to transport problem (N) ....June 29 32
Milk-fed heat pump system (D) ....May 25 19
Predict home owner may someday sell power back to utility companies (N) ....May 4 17
Solar Energy Symposium spotlights potentials (N) ....June 15 24
Soviet sun turbine based on solar-heated turbine blades (D)....Apr. 20 11
Taming tomorrow's power sources. A. R. Gardner....May 4 28
Uranium converts heat to electricity (N) ....May 4 10

Presses

Air Force wants heavy presses to help make missiles (N)....Jan. 12 30
Packaged press squeezes costs (PD) ....May 25 48
Redesigned press for Switzerland (T) ....Feb. 9 40

Printed Circuits

Design your own dc motors with printed circuit rotors. Burr & Swiggett ....Mar. 16 64
Printed circuit armature of dc motor plated on both faces of insulating disk (N) ....Feb. 16 24
Printed circuit operates without deterioration at temperatures exceeding 1300 F (N)....June 29 32
Switch to printed circuit in missile saves weight, production time (N) ....Mar. 16 27
TV servicemen assay printed circuit design (N) ....Apr. 6 28
Test patterns for printed circuits (D) ....May 4 7

Radio and Television
Biggest radio telescope being built by Navy (D) ....May 18 11
Cold-cathode radio tube (D)....Mar. 2 19
Color TV projector (D)....Jan. 26 7
Communications from space vehicles (N) ....Mar. 2 22
Construct radio astronomy antenna (N) Jan. 12 26
Earthbound pilots fly jets with closed circuit TV (N)....Jan. 19 19
Folding chassis on German TV set (N) Mar. 2 22
Radio blackouts caused by X-radiation from the sun (N)....Feb. 9 14
Radio telescope design details shrouded in secrecy by Navy (N)....June 8 37
Soviets speed color TV development (N) ....Mar. 2 25
Transistors correct telex signals (N) Mar. 23 22

Rectifiers
Design self-quenching control rectifier (N) ....May 25 22
Germanium locomotive power rectifier passes 3-year test (N)....Jan. 26 19
Photo rectifier assembly (SP)..Mar. 23 32

Relays
Relay controlled by microamp switches full ampere (D)....June 1 11
Selector relay from Norway (T) June 1 35
Sensitive mercury-wetted contact relay (SP) ....Jan. 5 75
Test gives relay specifications. T. Ross Welch ....June 8 88

Research
Air pollution: some answers (P) Feb. 16 47
Aircraft and rocket nuclear-propulsion research site selected (D)...June 15 13
All the earth's a pear (N)....May 18 12
Aluminum sub to study ocean bottom (N) ....Mar. 9 25
Basic Research Symposium—scientists seek support for basic research (N) June 1 21
Britain ups its aid to R & D (N) Feb. 9 27
British say sky's the limit for national R & D (N)....May 18 23
Cryogenic research may be helped by magnetogenics (N) ....June 29 12
De Gaulle names "research minister" (N) ....Jan. 26 25
Defense money for materials research (D) ....Feb. 23 11
Economics of research and new product planning. Russ Eggers...Mar. 9 42
Electric shock tube duplicates interplanetary shock waves, may assist space travel weather forecasts (N) June 1 23
Engineering organization in transition —report. E. J. Tangerman..May 11 47
European train designs leave US behind (N) ....May 18 21
Federal council for science and technology created (D)....Jan. 12 11
Federal R & D budget (P)....Jan. 5 39
Fungi that live without air are becoming a space-age headache (D) Feb. 2 13
Hi-temp hydraulic research (D) June 22 37
How do you get information from foreign technical publications? (PV) Feb. 23 38
ICI members research for each other (N) ....Mar. 23 21
Japanese seek data on R & D (N) June 22 40
Knee-deep in paper—world's scientific literature problem. Allen Kent Jan. 12 34
Merge for R & D gain (P)....Jan. 19 61
Metallurgical research at new lab (N) Mar. 2 24
Military R&D coordination still sought; may be one way to reduce weapon design obsolescence (N)....June 14 23
Missile men develop heart pump (N) Feb. 9 25
Motivation research—to what extent does motivation research affect your product's design? (PV)....Jan. 26 40
NASA assigns basic research contract to universities (N)....June 8 37
NASA R&D contracts let (D)..Mar. 9 15
NBS studies high polymers' mechanical shear (N)....May 11 23
NSF study shows more aircraft-missile engineers engaged in R & D (N) Mar. 16 28
Navy unveils ocean-bottom program (D) ....Apr. 6 13
Oceans will supply our future materials needs (N) ....Mar. 9 18
Pentagon names Dr. H. F. York to unsnarl defense R & D (N)..Feb. 2 19
Probing the earth's core—drilling by vibration may be one answer (D) Jan. 19 14
Prune your R&D, experts tell AMA (N) ....Mar. 9 30
Radioactive drill locates coal (N) Mar. 2 22
Red China transistor research at high level (N) ....Feb. 9 27
Republic Aviation undertakes research to develop high-temperature hydraulic control system (D)....June 22 37
R & D commitments on rise: businessmen forsee steady increase to 1962 (N) ....Apr. 20 23
R & D costs climb twice as fast in 3 years as hiring rate of scientists, engineers (N) ....Feb. 2 17
R & D defense dollars will be added to US budget (N)....Feb. 2 18
Sea water conversion on shipboard by electrodialysis (D) ....June 29 11
Sea-water distilling machine (N) Apr. 20 26
Sea-water to fresh-water conversion studies to be made (D)....June 15 13
Secrecy and the technical press (P) June 22 61
Secrecy in science slows down development says Nobel Prize Winners (D) June 29 11
Service R & D policies to be studied (D) ....Feb. 9 13
So you want to be a manager (P) June 8 73
Solar energy potentials (N)...June 15 24
Sounder R & D management advised (N) ....May 18 31
Soviet plastics R & D in high gear, but large scale production is some distance away ....Feb. 9 23
Space exploration—where did you go? Out. What did you find? Nothing. (P) ....Mar. 16 47
The technical survey . . . why and how. W. S. Bennett....June 15 38
TEL process (N)....June 29 27
US imposes ban on export of technology (N) ....June 15 34
Urey, Dr. Harold C. hits excess of scientific reports (N)....Jan. 19 20
Weather bureau says changing weather will be expensive (N)....Feb. 23 12
Welcome—inventors. Jack Meyer Mar. 9 97
With research equipment—safety first. J. W. Reid....Jan. 19 82
World beneath us—exploration in depth (N) ....Jan. 12 14
World weather system passes first tests (N) ....June 1 27
World's largest tire (N)....May 11 26

Rubber and Elastomers
Adhesive bonds dissimilar unvulcanized elastomers (SP) ....May 4 35
Cellular elastomer standard being studied (D) ....June 29 8
Dissimilar elastomers can be bonded before curing (D)....Apr. 27 20
"Inorganic rubber" (D)....Apr. 6 9
Japanese claim new rubber (D) Apr. 13 36
NBS studies high polymers' mechanical shear (N) ....May 11 23
New names for rubber—ASTM suggestions (N) ....Jan. 26 13
Nylon's tough new rival. M. S. Thompson ....June 8 76
Phosphinic-nitride polymers (D) Apr. 6 9
Properties pose scientific paradox (N) Apr. 6 16
Rubber-asbestos helps make S-P rocket motors (N) ....June 15 32
Rubber parts for flexible pump (PD) Feb. 16 58
Rubber plus fuel: watch hidden damage (N) ....Apr. 20 16
Rubberlike materials for synthetic hydraulic fluids (A)....Feb. 16 116
Silicone rubber for high-temperature seals (A) ....May 11 242
Synthetic rubber with 30% wearability (N) ....May 11 26
World's largest tire (N)....May 11 26
Yarn to improve rubber parts (N) June 1 15

—S—

Safety
Definitions for danger—new words (N) Feb. 23 14
With research equipment—safety first. J. W. Reid....Jan. 19 82

Sandwich Structures
Foamed plastic sandwich panels. Jones & Hersch ....Apr. 13 69
Honeycomb brazing meets quadrupled needs (N) ....Apr. 27 23
"Insect-wing" metal panel. Dr. W. M. Von Tannenberg ....Mar. 16 62
More stainless honeycomb with new furnaceless brazing (N)....Mar. 16 29
Simpler, less-expensive honeycomb sandwich structure reported (N) June 29 27

Seals
All-metal shaft seal (SP)....Mar. 2 71
Expandable foam sealer (N)...June 8 43
Fire-safe mastic sealer (SP)...Mar. 23 32
High freeze-thaw resistance sealing compound (SP) ....Jan. 26 44
O-ring that won't pop out (D)..Apr. 27 20
Seals for minus 400 F are an immediate necessity (D)....June 22 36
Sintered-metal parts sealed by process that impregnates thermosetting plastic resin into pores (SP)....May 4 35

Semiconductors
Cadmium works hard as a semiconductor (N) ....Jan. 12 18
Higher temperature operation for semiconductor devices (D)....June 8 33
Low-cost single-crystal semiconductors can be mass-produced (D)...June 1 9
Plastic semiconductors claimed by Soviets (D) ....May 18 9
Semiconductor crystal comprises Xmas tree (N) ....Jan. 12 29
Semiconductor simplifies magnetic field measurement (D) ....May 18 9

Soldering
Industry's opinion on the reliability of electrical connections—report. F. D. Yeaple ....Feb. 2 54
Resin soldering fluxes to improve soldered joints (D)....June 29 9
Solderability of wire (A)....Feb. 16 116

Space Technology
Air Force designing container to send 150-lb payload on roundtrip space flight (N) ....Mar. 16 32
Air-Force Lockheed symposium probes outer space environment (N)..May 25 26
ARPA defines "military" space (N) Apr. 6 26
Asymmetrical heating poses problems for space-flight engineers (D)..June 8 34
Chemical fuel won't put man into space says missile expert (N)....Mar. 2 24
Commercializing space technology urged (N) ....May 25 26
Communications from space vehicles (N) ....Mar. 2 22
Engineer, biologist, scientist, military define space (N)....Feb. 23 12

(A) Abstract. (D) Developments. (DR) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (PV) Points of View.
(RS) Reference Book Sheets. (SP) Significant Parts. (T) Trends in Appearance Design.

Engineering bars to space observatories cited (N) ..... May 11 26
Engineers solving space medical problems (N) ..... Feb. 23 28
France to launch rockets for high-altitude data (N) ..... Mar. 16 32
Gravity-free experiments without space flight (N) ..... Jan. 12 14
Great Britain stresses supersonic satellites (N) ..... May 25 22
Heat tests scheduled for space flight program (N) ..... Mar. 16 32
Lubrication, materials problems in space vehicles challenge design engineer (N) ..... Jan. 19 17
Manned satellite tests start with chute drops (D) ..... Feb. 9 13
NASA activates space group (N) ..... May 4 17
NASA—contracts let, new space vehicles being developed (D) ..... Mar. 9 15
NASA names committee to deal with "long-range" space matters (N) ..... June 1 25
Nation's seven astronauts started on extensive pre-orbital program (D) ..... Apr. 20 13
Next Sputnik may be a TV relay station (D) ..... May 4 8
Pravda describes space vehicle instrument package (N) ..... Jan. 26 21
Project Mercury progress report (N) ..... Apr. 13 39
Recovery from space (N) ..... Mar. 23 17
Space age budget outlined to Congress (D) ..... Mar. 9 15
Space exploration—Where did you go? Out. What did you find? Nothing. (P) ..... Mar. 16 47
Space maps (D) ..... Apr. 20 13
Where are the planets? New measurements of orbits, size (N) ..Feb. 9 14

Spinning

Automatic spinning for conical shapes —photo story ..... Jan. 5 46
How to put more into your spun parts. F. J. Covelli ..... Apr. 27 58
Powered spinning . . . important development in metal forming—photo story ..... Jan. 5 42

Springs

Helical-spring design chart. Charles Tiplitz (RS) ..... Jan. 19 93
How much force to deflect a spring sideways? W. H. Sparing (RS) ..... Jan. 5 71
Prestressed power spring (N) ..June 8 41
Springs—off the shelf (N) ..... Feb. 2 17

Standardization

ASA sets bearing standard (N) ..... June 29 29
British-American standard gallon urged by Canada (D) ..... May 18 9
Cellular elastomer being studied (D) ..... June 29 8
English decimal system of measurement. G. G. Lips ..... June 8 90
English-speaking nations will adopt new pound, yard standards (N) ..... Jan. 19 16
JIC Hydraulic Codes undergo up-dating (N) ..... Apr. 27 26
Metric system in effect in Japan—at last (N) ..... Apr. 27 22
More room for common standards. K. M. Stoll ..... June 22 79
NFPA urges standardized rod, bore cylinder sizes (N) ..... June 1 24
Seek common language for world's machine searching, translation (N) ..... May 4 17
Should the US adopt the metric system? (PV) ..... Mar. 23 30
Translating steel specifications (N) ..... June 1 15
US shift to metric system (D) ..May 18 11
Workable approach to gear tolerances. W. A. Wiegand ..... May 25 52

Statistical Control

Two on statistics (A) ..... Mar. 30 88

Steel

Acid resistance of stainless steels can be increased with platinum (D) ..... Jan. 26 8
Best bearing steel for the 930-F range (D) ..... May 25 20
Better alloy steels from new furnace (N) ..... May 11 25
Controlled explosive blasts hardness into steel. W. A. Harper ....Apr. 13 62
Frosted look for stainless steel (SP) ..... Mar. 2 71
Low-temperature transformation could cause trouble (D) ..... Jan. 19 14
More stainless honeycomb with new furnaceless brazing (N) .....Mar. 16 29
NBS studies fatigue properties of high-strength steels (N) ..... Apr. 20 29
New processes to make familiar materials (N) ..... Feb. 9 16
New specifications (N) ..... Apr. 6 16
Nitriding process 1000 times as fast (D) ..... May 18 9
Paper-thin steels for high-stress applications (N) ..... June 29 13
Poor steel hardening control in Russia? (N) ..... Feb. 16 23
Steel growth without change (N) ..... Mar. 9 18
Steel that is plastic while cold (SP) ..... Jan. 12 43
Thin steel makes tough cylinders (N) ..... June 8 37
Translating steel specifications (N) ..... June 1 15
Vacuum deposit aluminum film on steels (N) ..... May 25 23
Vinyl-coated steel (SP) ..... Feb. 23 42
What major technological advances do you foresee in your industry during the next five years? (PV) .....Feb. 9 28

Stress Analysis

Bearing fatigue failure caused by fiber orientation (D) ..... June 1 9
Buckling in hydraulic tubing. W. H. Cooley ..... May 11 71
Creep data and problems—two papers (A) ..... Jan. 19 122
Effect of mean stress on fatigue (A) ..... Jan. 19 122
Effect of residual stress on fatigue strength (A) ..... Feb. 16 116
Effect of sleeve material on fatigue strength of shafts (A) ..... Mar. 6 111
Failure diagram for fluctuating stress. M. F. Spotts ..... Feb. 16 66
Foamed plastic sandwich panels flexure limits. Jones & Hersch ..... Apr. 13 69
For thick-end cylinders these stress-correction factors. R. I. Isakower (RS) ..... May 25 65
How gaskets behave. E. M. Smoley ..... May 25 40
How much force to deflect a spring sideways? W. H. Sparing (RS) ..... Jan. 5 71
How relaxation affects material under combined stress (A) ..... May 11 242
How wall thickness affects stress-rupture life of tubes (A) ..... May 25 94
Maximum strain energy (A) ....Jan. 5 93
NBS studies fatigue properties of high-strength steels (N) ..... Apr. 20 29
One-side heating may pose severe design problems (D) ..... Mar. 30 20
Partially loaded continuous beams. Alexander Krivetsky (RS) ...Mar. 16 73
Photomicrograph — new method of measuring strain (N) ..... Mar. 2 21
PhotoStress analysis. Dr. Felix Zandman ..... Mar. 2 43
PhotoStress — More on PhotoStress. Peter Stein and reply by Dr. F. Zandman ..... June 8 79
Photostress values direct from the polariscope. Zandman & Redner (RS) ..... June 22 89
Residual stress and brittle fracture (A) ..... May 25 97
Shafts: 5 steps find . . . strength and deflection. Charles Tiplitz (RS) ..... May 11 91
Simplified calculation of design stresses (A) ..... Feb. 2 87
Stress corrosion racking—new explanation (D) ..... May 25 30
Stress of threaded fasteners (A) ..... Feb. 2 87
Thermal stress studied by photoelasticity (N) ..... Jan. 26 12
Thermal stresses in plates (A) .June 22 134
Transparent plastic stress analysis (N) ..... June 1 14
Two papers on creep (A) ..... Jan. 19 122
V-belt ratings tripled by stress analysis technique (N) ..... May 4 19

Switches

Double footswitch for dictation transcribing (T) ..... June 15 43
Heavy-duty rotary switches from England (D) ..... Jan. 5 22
Low-pressure airflow switch (SP) ..... Feb. 2 71
Magnet-actuated switch (SP) ..Jan. 26 44
Miniature pressure switch (SP) .Feb. 16 79
Packaged switching units (SP) .June 22 93
Plastic innards fashioned for electric switch (N) ..... Mar. 23 23
Poppet-actuated pressure switch (SP) ..... Apr. 6 47
Pressure switch (SP) ..... Feb. 9 42
Psia switch (SP) ..... Jan. 12 43
Safety switch for machines (D) ..... Apr. 13 35
Silicon PNPN switch (SP) ..... Apr. 6 47
Subminiature gas-density switch (SP) ..... June 29 38
Switch has plug-in wafers (SP) .Apr. 6 47
Thermal tripping device built into switch (D) ..... Apr. 6 11
Which snap-action switch? J. O. May ..... Apr. 13 58

—T—

Tangents

The friendless mechanical .....Apr. 13 119
Have the medicine men taken over? ..... May 11 230
How precise is precision? .....Feb. 16 112
Is the designer his brother's keeper? ..... June 8 133
"Mene, Mene, Tekel Upharsin" .Mar. 16 104
1984—in Gadgetland ..... Jan. 19 116
Sooner or later, one forgets ....June 22 128

Telephone

Japanese wireless microphone (D) ..... May 4 8

Terminology

Dialects in engineering? (Ed) .Mar. 30 41
Definitions for danger ..... Feb. 23 14
Ions and radicals (N) ..... Mar. 23 12
Plastics terminology available from manufacturers (N) ..... Jan. 26 13
Rubber—new names, ASTM suggestions (N) ..... Jan. 26 13
Three for "thermal" (N) ..... Apr. 6 14

Testing

Automatic circuit testers will slash airline maintenance (N) ....June 29 26
Battery-operated tester (T) .....Feb. 9 40
Bearing tester speeds development of new oilless bearing (N) .....Apr. 20 25
Dating (time-lapse measurement) systems (D) ..... Apr. 13 86
Develop method to test resistor noise quality (N) ..... Mar. 23 19
Dome-shaped piston measures pliability of samples (D) ..... Apr. 13 36
Driving simulator (N) ..... Apr. 6 27
50,000-atmosphere pressure and 1000 F to test minerals (D) .....Mar. 9 9
Fixed compressed air "islands" speed pre-flight test operations (N) .Mar. 30 25
Friction on non-metals studied in England (D) ..... Jan. 26 8
Fungus and flame test on tubing influenced by tube size (N) .....June 1 15
Gas detector kit for toxic materials (N) ..... May 18 12
Germans emphasize special designs for ultrasonic flaw detection (N) ..... Mar. 30 24
Hardness field testing unit weighs 9 oz. (N) ..... May 18 14
Heat distortion of micrometer screws (D) ..... May 11 27
Heat tests scheduled for space-flight program (N) ..... Mar. 16 32
How some materials beat the heat (N) ..... Feb. 9 14
Isotope power is making progress (D) ..... Feb. 23 7
Liquid fuel made fluorescent for research (N) ..... Apr. 6 14
Liquid metal package heat transfer loop (N) ..... Mar. 2 21
Load-tester for corrosion research (N) ..... Mar. 23 12
Magnetic inspection at 400 to 1000 parts an hour (D) .....Jan. 5 21
Manned satellite tests start with chute drops (D) ..... Feb. 9 13
More data at higher temperatures (N) ..... May 4 10
NBS studies high polymers' mechanical shear (N) ..... May 11 23
Navy researchers point out new test equipment will be needed to evaluate products designed for 930-F range (D) ..... May 25 20
Radio blackouts caused by X-radiation from the sun (N) .....Feb. 9 14
Sheet thickness may affect ductility (D) ..... Apr. 13 36
Structural vibration—an oscilloscope tells the story in pictures. Wilbur Du Bois ..... Feb. 2 52
Test gives relay specifications. T. R. Welch ..... June 8 88
Test large operating equipment during irradiation (N) .....Feb. 16 21
Test patterns for printed circuits (D) ..... May 4 7
Test rates solid lubricants. A. Sonntag ..... June 22 64
Tester for gear and bearing materials (N) ..... Jan. 26 13
Tests oxidation of superalloys. Rod Simens ..... Apr. 27 48
Thermal stress studied by photoelasticity (N) ..... Jan. 26 12
Tighter control of test equipment studied by Armed Services (N) ..... June 22 37
Transient shock waves traced and recorded (N) ..... Apr. 20 14
Vacuum alters mechanical characteristics of materials (N) .....June 1 23
Wind tunnel (N) ..... June 22 38
World weather system passes first tests (N) ..... June 1 27

Textile

Hotter firewalls (N) .....June 8 43
Industrial fabrics (D) .....May 18 7
Refractory fabrics that conduct heat and electricity (D) .....May 4 7

Timers

Standard-frequency sources (D) ..... Mar. 23 9
Timer programs power supplies (SP) ..... Apr. 27 75

Titanium

Aluminum and titanium alloy content may increase severity of nickel-based materials (D) ..... June 8 34
'Noble' titanium ups corrosion resistance (N) ..... Apr. 13 42

(A) Abstract. (D) Developments. (DR) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (PV) Points of View.
(RS) Reference Book Sheets. (SP) Significant Parts. (T) Trends in Appearance Design.

Progress in developing titanium alloys (D) ....Mar. 16 26
Titanium gears outlast steel (D) Feb. 2 13

Tolerances
Finishes and tolerances (A)...Jan. 19 122
When is a tolerance just right? (A) Mar. 30 88
Workable approach to gear tolerances. W. A. Wiegand....May 25 52

Transducers
PhotoStress extended to direct reading (N) ....May 18 22
Piezoelectric transducers. J. J. Siegel Apr. 27 61
Smaller long-strike transducers (SP) Jan. 12 43
Static-pressure transducers. H. D. Nunn ....Jan. 5 48

Transistors
Red China transistor research at high level (N) ....Feb. 9 27
Silicon power transistors in unusual shapes and types (D)....June 1 11
Transistor diodes may improve design (N) ....June 15 27
Transistor-equipped static control module (SP) ....June 15 47
Transistorized ignition system to take lid off engine design (N)....Mar. 2 25
Transistors correct telex signals (N) Mar. 23 22
Transistors vs. tubes (D)....Apr. 27 20

Transmission
Higher engine speeds pose truck transmission problems (N)....Jan. 19 15
Low-cost automatic transmission for British cars (N)....Mar. 23 22
Overrunning clutch smooths bus ride (PD) ....Feb. 16 60
Redesign transmission housing (N) Mar. 23 23
Rotary-linear motion: 20 converting mechanisms. Federico Strasser (DR) Mar. 2 64

Tubes, Electron
Power tubes of advanced design (D) Apr. 6 9

Tubing
Fungus and flame test on tubing influenced by tube size (N)....June 1 15
Buckling in hydraulic tubing. W. H. Cooley ....May 11 71
Copper alloys for those small tubular parts. D. S. Granniss....Feb. 2 44
Copper tube with off-center hole to be available (D)....May 18 7

—V—

Vacuum Melting
Better alloy steels from new furnace (N) ....May 11 25
High-vacuum, electron beam welders (D) ....Mar. 23 7
Vacuum deposit aluminum film (N) May 25 23

Valves
Adjustable flow valve (SP)....Mar. 30 71
Auto-manual control valve (SP) June 22 93
Ball cock valves puts pressure to work for tight seal (PD)....May 11 78
Control valve with color-coded scale (SP) ....June 8 107
Flexible vinyl grommet (SP)..Jan. 26 44
Fluorocarbon check valve (SP)..Mar. 16 77
4-way manual valve (SP)....Mar. 30 71
High-pressure valve line (SP)..Mar. 2 71
Indicating relief-valve (SP)....May 18 47
Magnetic solenoid valve (T)..June 15 43
Metering valves, high-capacity (D) Mar. 23 7
Pressure-check-valve (SP) ....Jan. 5 75
Rating fluid-control valves. J. J. Pippenger ....June 22 80
2-way control valve (SP)....Feb. 23 42
Valve controls speed (SP)....Apr. 13 85

Vibration and Shock
Cumulative damage (A)....May 11 242
Lateral vibrations in reciprocating machinery (A) ....Jan. 5 93
NBS develops vibration analyzer (N) Apr. 27 22
Shock tests for rough handling. J. T. Gwinn Jr....May 11 74
Structural vibration—an oscilloscope tells the story in pictures. Wilbur Du Bois ....Feb. 2 52
Transient shock waves traced and recorded (N) ....Apr. 20 14
Vibration (A) ....Feb. 2 87

—W—

Welding
Automatic welder (N)....Jan. 5 27
Determining weld-size (A)....June 8 136
Gas-pressure equalizer (D)....Jan. 19 13
High-vacuum, electron beam welders (D) ....Mar. 23 7
Industry's opinion on the reliability of electrical connections—report. F. D. Yeaple ....Feb. 2 54
"Insect-wing" metal panel. Dr. W. N. Von Tannenberg....Mar. 16 62
Refractory metals safeguards. A. F. Busto ....May 25 43
Short-arc welding process (SP) June 22 93
Welding gun (T)....Mar. 9 48
What do the Russians weld with?—report Peter Trippe....Jan. 19 64
Three US experts evaluate USSR progress. David Swan, Dimitri Vvedensky, Robert J. Gasser...Jan. 19 65

(A) Abstract. (D) Developments. (DR) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (PV) Points of View.

ORGANIZATIONS

Abrado Finish Corp.—Abrasive finishing machine that reverses the usual method (D).....Feb. 9 9

Advanced Vacuum Products, Inc.—Printed circuit operates without deterioration at temperatures exceeding 1300 F (N).....June 29 32

Aermacchi—"Tigre" truck (T)..Feb. 23 34

Aerojet-General's Explosive Ordnance Div.—Production explosive forming on a predictable basis (N)..Apr. 20 26

Aeroprojects Inc.—Ultrasonics bonds aluminum (N).....May 4 16

Affiliated Manufacturers Inc.—Device for small-parts feeder (SP).....June 1 36

Aiko Electric Co.—Japanese wireless microphone (D).....May 4 8

Air Reduction Chemical Co.
Holds American license on new Japanese polyvinyl alcohol fiber (N).....May 25 23
Stearate beefs up plastics and paints (N).....Mar. 9 18

Air Reduction Co.—High-vacuum, electron beam welders (D).....Mar. 23 7

Ajax Flexible Coupling Co. Inc.—Flexible couplings (SP).....Mar. 2 71

Aktiebolaget Arboga Mek. Verstad (Sweden)—Swinging shear slices sheet squarely (PD).....Jan. 5 55

Allgemeine Elektrizitaets-Gesellshaft—Thermal tripping device built into switch (D).....Apr. 6 11

Allis-Chalmers Mfg. Co.
Timing-belt drive (SP).....May 18 47
Who needs to know . . . and what. W. M. Terry.....Mar. 23 25

Allison—Allison engineland (N)..Mar. 16 32

Alpha-Molykote Corp.—Solid lubricants for extreme pressures. A. Sonntag June 22 64

Alsthom (Paris, France)—Locomotive shifts gears (PD).....Jan. 5 53

Aluminum Co. of America
Spherical oven for homes of tomorrow (N).....Mar. 23 13
Standard-wall pipe ends (SP)..May 11 158
Ultrasonics bonds aluminum (N) May 4 17

L'Aluminium Francais—Aluminum powder increases plastic strength (D) June 15 11

American Bosch Arma Corp.—Miner, Richard Y. (PV).....Feb. 23 39

American Brake Shoe Co. Denison Eng. Div.—Packaged press squeezes costs (PD).....May 25 48

American Brass Co. French Small Tube Div.—Copper alloys for those small tubular parts. D. S. Granniss..Feb. 2 44

American Chemical Society—More data at higher temperatures (N)..May 4 10

American Electronics, Inc. PDP Div.—Data handlers for computers and controls (T).....Jan. 26 26

American Enka—Cellulosic fiber (D) Mar. 23 7

AIEE—Winter General meeting papers (A).....Mar. 2 89

American Lava Corp.—Ceramic vacuum-tube headers with tantalum pins (D) Jan. 26 7

American Machine and Foundry Co. DeWalt Div.—Saw stops in 5 sec. with capacitor braking (PD)..June 22 72

American Management Assn.—Prune your R&D, experts tell AMA (N)..Mar. 9 30

American Motors Corp.—Isbrandt, R. H. (PV).....Feb. 9 29

American Research & Manufacturing Corp.—Develop missile loader for the Navy (N).....June 1 22

American Smelting & Refining—Silver solves product design problems (N) Mar. 9 18

American Society of Lubrication Engineers—Gear symposium-emphasis is on experimental methods....Feb. 16 64

American Society of Mechanical Engineers
Aviation Conference—'handy-man' satellite described (N).....Mar. 16 30
Design Engineering Conference *see* in subject index under **Design Engineering Show**
Notes on diesel design, fuel cells, engineer budgets (N).....June 22 41

American Standards Assn.
More uniform drafting practices (N) June 8 38
Sets bearing standard (N).....June 29 29
Townsend, J. R. (PV).....Mar. 23 31

American Steel Foundries—How much force to deflect a spring sideways? W. H. Sparing (RS).....Jan. 5 71

American Tools Works Company—Hydraulics-pneumatics-electronics blended to control positioning table to 0.000050 inch (N).....May 11 23

American Viscose Corp.—Cellulosic fiber (D).....Mar. 23 7

American Viscose Corp.'s Research & Development Div.—Plastic structural differences seen by electron microscope (N).....June 15 14

Anchor Plastics Co. Inc.—Shrink-fit thermoplastic (SP).....May 11 156

APM Corp.—Flexible silicone covers (SP) May 25 69

Ardmore Products Inc.—Nondirectional textured metal (SP).....Apr. 27 75

Argonne National Laboratory—A differential pressure gage for use with corrosive fluids (D).....May 11 21

Arguto Oilless Bearing Co.
Alloyed plastics give oilless bearings. H. Clay Mellor.....May 25 58
Self-lubricating metal-plastic bearing (SP).....Apr. 13
Tester speeds development of new oilless bearing (N).....Apr. 20
Thermosetting-plastic bearing material with lubricant built in (D)....Mar. 9 9

Armaturenfabrik Wallisellen AG—Mixing faucet with fingertip dial (T) June 29 34

ASESA (Armed Services Electro Standards Agency)—Tighter control of test equipment studied by Armed Services (N).....June 22 38

Armour Research Foundation
Forging presses strength into lightweight castings. W. Rostoker Feb. 16 61
Furfuryl resin for protective coatings (D).....Apr. 13 35
Pressed-metal method (N)....June 29 27

Armstrong Cork Co.—How gaskets behave. E. M. Smoley.....May 25 40

Associated Spring Corp.—How to lick spring tangling. R. O. Johnson. June 22 74

Aston-Martin Lagonda Ltd.—Aston-Martin BB4 (PD).....Apr. 27 56

Astrodyne Inc.—Rubber-asbestos helps make S-P rocket motors (N)..June 15 32

Atlantic City Electric Co.—Electric car (D).....May 18 7

Atlantic Refining Co.—Higher compression ratios seen for future engines (D).....June 15 8

Atlas Copco AB
Air-operated safety light (D)..Apr. 27 19
Compressed air de-icing system (N) Jan. 26 21

Atomatic Mfg. Co.—Self-aligning free coupling (SP).....Feb. 9 42

Atomic Energy Commission
Atomic patent—Supreme Court refuses to rule on Spevack vs AEC case (D) Apr. 6 13
Atomic reactor designs weeded out (D) June 29 11
Homogeneous reactor tested with gold-plated structure (N).....May 4 10
Patent case—J. S. Spevack vs AEC (D).....Mar. 23 11
Powdered-metal parts properties depend on porosity (D).....Mar. 9 10
Secrecy and the technical press (P) June 22 61
Student laboratories to teach future atomic engineers (N).....Feb. 23 12

Audio Engineering Society—Show and 6th Annual Western Convention shows oldest wire recorder in the world (N).....Mar. 16 30

Auburn Manufacturing Co.—Dry adhesive film preforms (N).....June 8 44

Austin Motor Company Ltd.—Truck has rubber knees (PD).....Mar. 2 55

Austin Screw Products Co.—Screw, composite plastic (SP).....Apr. 20 42

Austmate Ltd.—Two heavy-duty rotary switches (D).....Jan. 5 22

Australian Defense Standards Laboratories
Fine-lined patterns in glass (D) Feb. 16 20
Heat distortion of micrometer screws (D).....May 11 22

Automatic Timing & Controls Inc.—Smaller long-strike transducers (SP) Jan. 12 43

Avco-Everett Research Laboratory—Arc-plasma generator designed (N) June 29 28

Avco Manufacturing Corp.—Duplicates interplanetary shock waves, may assist space travel weather forecasts (N).....June 1 23

Avco Mfg. Co. Research and Advanced Development Div.—Piezoelectric transducers. J. J. Siegel....Apr. 27 61

Avery, W & T Ltd.—Weighing scale (T) Mar. 9 49

AviSun—Polypropylene entry (N) Mar. 23 18

Baker Brothers—Custom drillheads from stock parts (PD).....Jan. 19 75

Baker Castor Oil Co.—Urethane coatings dry faster in new formula (D) Apr. 27 20

Baker, J. T. Chemical Co.—Transparent plastics improved (D).....Mar. 23 7

Barksdale Valves
4-way manual valve (SP).....Mar. 30 71
Pressure switch (SP).....Feb. 9 42

Barnes, Wallace—Springs—off the shelf (N).....Feb. 2 17

Barrett Electronics Corp.—Guided buses (D).....Feb. 2 13

Barry Controls Inc.—Isolation mounts (SP).....May 11 157

Battelle Memorial Institute
Columbium and vanadium carbide may be next hard refractories (D)..June 8 34
Drilling by vibration may be one answer (D).....Jan. 19 14
High alloys for higher temperatures (N).....Apr. 20 16
Higher temperature operation for semiconductor devices (D).....June 8 23
H_2 embrittlement licked (N)...June 8 45
New finishes for zinc (D).....Jan. 12 9
New tester for gear and bearing materials (N).....Jan. 26 13
Sheet thickness may affect ductility (D).....Apr. 13 36
Study nonnuclear uses (N)....May 4 17

B B Chemical Co.—Urethanes and sand (N).....June 8 44

Belding Corticelli Industries—Nylon 11 (N).....June 29 13

Bell Aircraft Corp.
Carpet plotting. Alexander Krivetsky Jan. 5 60
Partially loaded continuous beams. Alexander Krivetsky (RS)..Mar. 16 73

Bell Telephone Labs
Keenedy, R. A. (PV).....Feb. 23 39
Test patterns for printed circuits (D) May 4 7

Bellows Co.—Air-line regulator (SP) Feb. 2 71

Bendi—Tape control offers versatility (N).....Jan. 19 18

Bendix Aviation Corp.
Save time on Minuteman Missile Program (N).....Feb. 9 25
Seeks share of Europe Common Market (N).....Mar. 2 25
World weather system passes first tests (N).....June 1 27

Benson-Lehner Corp.—Benson, Bernard S. (PV).....Jan. 26 41

Berlin-Luebecker Maschinenfabrik—Swallowed mirror guides tube-straightener (PD).....May 25 49

Beryllium Corp.
Beryllium extrusions should be easier to get (D).....Feb. 16 19
Ductile beryllium forgings (N)..Apr. 6 25

Bettinger Corp.—Foreign licensing calls for much preparation (N)...June 22 41

Bjorksten Research—Carbide fibers to reinforce metals (D).....Mar. 9 10

Blavi-Knox Co.—Construct radio astronomy antenna (N).....Jan. 12 26

Boeing Airplane Co.
Buckling in hydraulic tubing. W. H. Cooley.....May 11 71
Hires more Canadian engineers as consultants to Bomarc (N).....May 4 18
Marine gas turbine tested for short stop (N).....Feb. 16 24
Metal bonding aids spinning. Harold Marks.....Feb. 16 63
Structural vibration—an oscilloscope tells the story in pictures. Wilbur Du Bois.....Feb. 2 52
This test for oxidation resistance of superalloys. Rod Simens.....Apr. 27 43

Bolt Beranek and Newman, Inc.
Numerical integration simplifies complex design. E. E. Ungar....Mar. 16 50
Numerical integration works with dynamic systems too. E. E. Ungar Apr. 27 64

Bristol—Miniature socket-head screws (N).....June 8 47

Bristol-Siddeley—Bares details of new engine (N).....June 29 30

Britain's Dept. of Scientific & Industrial Research—Sky's the limit for national R & D (N).....May 18 23

Britain's Tin Research Institute—Solderable tin-nickel coatings (D)..Apr. 6 11

British Motor Co.—Scale Austins longer, wider (N).....Feb. 9 28

British Railways—Germanium locomotive power rectifier passes 3-year test (N).....Jan. 26 19

Brooks Rotameter Co.—Flowmeter counts flowing liquid (PD).....May 11 81

Brown and Sharpe Mfg. Co.—Redesign grinder with better looking, low-cost base (PD).....Jan. 19 72

Brown and Sharpe Mfg. Co. Hydraulics Div.—Rating fluid-control valves. J. J. Pippenger.....June 22 80

Brown & Sharpe Machine Tool Div.—Sizer, H. S. (PV).....Mar. 23 30

Brunswick-Balke-Collender Co. Reinforced Plastics Div.—FitzGerald, James E. evaluates Soviet plastics R & D.....Feb. 9 22

Buchanan Electrical Products Corp.—Terminal blocks (T).....June 15 42

Budd Co. Tatnall Measuring Systems Co.
Epoxy-back foil strain gages (SP) June 1 36
Photomicrograph—new method of measuring strain (N).....Mar. 2 21
PhotoStress analysis. Dr. Felix Zandman .....Mar. 2 43
PhotoStress extended to direct reading (N).....May 18 22
Photostress values direct from the polariscope. Zandman & Redner (RS).....June 22 89
Zandman, Dr. F. reply to P. Stein on PhotoStress.....June 8 79

Buhr Machine Tool Co.—Transfer-and-drilling machine (PD).....Feb. 2 51

Bulova Research and Development Laboratories—Tape measure for altitude (PD).....May 11 79

Burling Instrument Co.—Compact thermostat (SP).....May 11 156

Burroughs Corp.
Lens-less multi-message display (SP) Mar. 9 57
Morgan, Willis E. (PV).....Mar. 9 52

Byers, A. M. Co.—Wrought iron alloy (SP).....May 18 47

(A) Abstract. (D) Developments. (DR) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (PV) Points of View.

California Institute of Technology—Relaxation for high-purity metals (D) Mar. 30 19

California Technical Industries—Automatic circuit testers will slash airline maintenance (N) .....June 29 26

Cameron Motor—Imports Japanese auto (N) .....June 22 39

Canadair Ltd.—Expands design facilities to get US work (N).....June 22 40

Canada's Pulp & Paper Institute—Pneumatic pipeline to transport wood products (D) .....June 15 11

Canadian Defense Research Board's Armament Research & Development Establishment—Instrumented nose cone packed solid with equipment (D) .....Feb. 9 11

Canadian General Electric Co. Ltd.—6 types of corrosion . . . a preventive guide. P. C. Noy (RS).....Mar. 2 67

Canadian Patents and Development Ltd.—Government-owned marketing company (N) .....June 8 44

Canon Camera Co.—Motion picture projector (T) .....Jan. 12 38

Carborundum R&D Div.
Foamed silicon carbide (D)....June 29 8
Hafnium carbide—next electrical structural material? (N).....Feb. 9 16

Cardona Company Inc.—Microfilm enlargements race through automated darkroom (PD) .....Apr. 13 66

Carnegie Institute of Washington—50,000-atmosphere pressure and 1000 F to test minerals (D).....Mar. 9 9

Carreiro Design Associates—An industrial designer eyes the design show. Joseph Carreiro (T).....June 15 42

Case Institute—Smooth surfaces prove better adherents than rough (N) May 18 14

Castiglioni, A. and P. G.—Vacuum cleaner (T) .....Feb. 23 35

Celanese Corp. Applications Lab.—Better linear polyethylene moldings. R. H. Davidson .....Mar. 16 55

Centre d'Etudes et Recherces de Charbonnages de France — Transortized circuit breaker (D).....June 29 9

Chalon Consulting Engineers
Helical-spring design chart. Charles Tiplitz (RS) .....Jan. 19 93
Shafts: 5 steps find . . . strength and deflection. Charles Tiplitz (RS) May 11 91

Chance Vought Aircraft
Air clamping cuts machining time (N) Jan. 19 18
Fixed compressed air "islands" to speed pre-flight test operations (N) .Mar. 30 25
O-ring that won't pop out (D)..Apr. 27 20

Chapman, Dave Inc.—"Hat-box" vacuum cleaner (T) .....Mar. 9 48

Charbonnages de France — Radioactive drill locates coal (N).....Mar. 2 22

Check-All Valve Co.—Pressure check-valve (SP) .....Jan. 5 75

Chem Industrial Co.—Paint for use to 1700 F (SP).....Feb. 2 71

Chemical Development Corp.—Thermo-setting adhesives (SP).....Apr. 27 75

Chicago Dynamic Industries, Inc. Precision Products Div.—Switch has plug-in wafers (SP).....Apr. 6 47

Chicago Transit Authority—Guided buses (D) .....Feb. 2 13

China National Import Corp.—Issues export catalog (N).....Feb. 2 19

Chrysler Corp.
DeSoto Celia I (T).....Feb. 9 40
Robertson, J. R. (PV).....Apr. 20 41

Ciba Corp.—Color TV projector (D) Jan. 26 7

Cincinnati Cleaning & Finishing Machinery Co.—Solution-level control (SP) Jan. 19 95

Citizen's Rapid Transit, Hampton, Va.—9 ways to align mating parts. Wood, Jr. & Minter (DR).....May 11 88

Clare, C. P. & Co.—Sensitive mercury-wetted contact relay (SP)....Jan. 5 75

Clark Equipment Co.—Higher engine speeds pose truck transmission problems (N) .....Jan. 19 15

Clevite Corp.—1200 F anti-friction material announced (N).....Jan. 26 20

Coleman Engineering Co.—Pais switch (SP). .....Jan. 12 43

College of Aeronautics Manpowered Aircraft Committee—British predict aircraft with pedals (N).....Feb. 16 24

Colorite Industrial Dyers—Color-coding plastic parts (SP).....Jan. 12 43

Columbia Gas Systems, Inc.—6 mixers for burner gas and air. D. C. Greenwood (DR) .....June 22 86

Columbia University—Engineering education debate . . . Has capitalism failed? J. R. Dunning.....Mar. 9 45

Columbus Coated Fabrics Corp.—Non-staining finish for vinyl (SP).May 18 47

Commercial Shearing & Stamping Co.
How to put more into your spun parts. F. J. Coveil).....Apr. 27 58
"PL" factor of 12,000 (N).....June 8 46
Upset forgings now longer (N).June 8 43

Commonwealth Scientific and Industrial Research Organization—Device anticipates changes in temperature and pressure (D) .....June 22 35

Compagnie Francaise Thomson-Houston—100 measurements displayed simultaneously (D) .....Jan. 26 8

Compagnie Generale de Metrologie—Oscilliscope (T) .....Mar. 9 49

CompuDyne Corp.—High-speed positioning systems (SP).....May 25 69

Computer Equipment Corp.—Counting circuits that measure in "lightfeet"' (D) .....Mar. 30 20

Conflow Corp.—Rotary pump that aims to overcome two major causes of cavitation (D) .....Mar. 30 20

Consolidated Diesel—Emergency generating set (D).....Mar. 16 25

Consolidated Edison Co. of NY—Fairman, J. F. (PV) .....June 29 36

Consolidated Foundries & Mfg. Corp.—New railcar suspension cuts weight, adds comfort (N) .....Apr. 6 24

Consolidated General Products—Idling engine speeds generator through overdrive (PD) .....June 22 73

Consolidated Products Corp.—Poppet-actuated pressure switch (SP) Apr. 6 47

Consolidation Coal—Fuel cells come closer to commercial utilization (D) Jan 5 21

Consultative Committee on International Radio—Communications from space vehicles will be topic at meeting (N) Mar. 2 22

Continental-Diamond Fibre Corp.
Graphite fiber as a short-term, high-temperature heat barrier (to 5000F) (D) .....June 22 35
Teflon-glass cloth laminate (SP) Apr. 6 47

Control Electronics Co.—Variable delay lines (D) .....Jan. 5 21

Control Line Equipment—Valve controls speed (SP) .....Apr. 13 85

Controls Company of America—Liquid-level controls (N).....June 8 46

Cordo Chemical Corp.—Fabric for deadening noise (D).....Jan. 12 9

Cornell Aeronautical Lab., Inc.
Driving simuator (N).....Apr. 6 27
"Total-temperature measuring instrument" (D) .....Mar. 2 19

Courtauld's Ltd.—Cellulosic fiber (D) Mar. 23 7

Craftsman Industrial Designers—Roller (T) .....June 29 35

Creste Instrument Co.—Probe measures corrosion (SP) .....Apr. 6 47

Crompton Parkinson Ltd.
Ac voltmeter for 0 to 2 cycles per second (D) .....Feb. 9 11
Fractional-hp motors (D).....Jan. 12 12

Crucible Steel Co. of America—Best bearing steel for the 930-F range (D) May 25 20

Curtiss-Wright Electronics Div.—Earth-bound pilots fly jets with closed circuit TV (N) .....Jan. 19 19

Dahl, George W. Co. Inc.—Indicating relief-valve (SP) .....May 18 47

Dahlgren Naval Proving Ground Computing Center—Transcriber speaks computing languages (N).....June 15 34

Daimler-Benz Aktiengesellschaft — Mercedes-Benz (PD) .....Apr. 27 57

Daystrom Inc.—Static-pressure transducers. H. D. Nunn.....Jan. 5 48

Dayton Metal Products Inc.—Army places production contract for first long-range guided missile — story from report on the original project—dateline—40 years ago (N)....Jan. 5 23

Dayton Rubber Co.—V-belt ratings tripled by stress analysis technique (N) .....May 4 19

Delaware Valley Design & Drafting Council—World's givingest people (Ed) June 29 17

Densmore Engineering Co. Inc.—Tractor tools adjusted on the move (PD) Jan. 19 74

Designers for Industry Inc.—The technical survey . . . why and how. W. S. Bennett .....June 15 38

Dodge Mfg. Corp.—Smaller, lighter belt drive (SP) .....Jan. 5 75

Douglas Aircraft
Thor IRBM—why countdowns take so long (PD) .....Mar. 30 42
Thor production line (N).....Feb. 16 25

Dow Chemical Co.
Atomic nucleus to get periodic table (N) .....June 1 14
New glue for glass (N).....June 8 35

Dow Chemical International Ltd., SA—Smith, Dr. Frank B. (PV)....Feb. 23 38

Dow Corning Corp.—New foamed silicones give hi-temp insulation. D. E. Weyer .....Jan. 5 50

Drilube Co.—Lubes for LOX systems (D) Jan. 19 13

Dubied, Edouard & Co. (Switzerland)—Lathe packaged for easy adjustment (PD) .....Jan. 5 54

du Pont, E. I. de Nemours & Co.—Fast camera feeds film from hopper (PD) Mar. 2 54

DuPont's Textile Fibers Dept.—Yarn to improve rubber parts (N)....June 1 15

Dynamic Gear Co. Inc.—Workable approach to gear tolerances. W. A. Wiegand .....May 25 52

Eagle Signal Corp. — Timer programs power supplies (SP).....Apr. 27 75

Eastman Kodak Co.—Optical Section-profile Projector (PD).....May 11 80

Eichner, L. C. Instruments—Fast camera feeds film from hopper (PD).Mar. 2 54

Elastic Stop Nut Corp. of America—Self-locking cap nut (SP).....Feb. 2 71

Electric-Auto-Lite Co.
Foamed alumina (N).....June 8 44
Transistorized ignition system to take lid off engine design (N).....Mar. 2 25

Electric Machinery Mfg. Co. Mulienbach Div.—Electrostrictive ceramic measures voltage (SP).....June 1 36

Electric Storage Battery Co.—Industrial fabrics (D) .....May 18 7

Electric Storage Battery's Industrial Div.—Electric cars and trucks are coming back (D) .....Jan. 26 7

Electrofilm Inc.
More stainless honeycomb with new furnaceless brazing (N).....Mar. 16 29
Solid-film lubricant (SP).....Jan. 19 95

Electronic Engineering Co.—Space range, or chain radar instrumentation system for testing X-15 (N)....Mar. 16 31

Electrosnap Corp.—Double-lighted push-button (SP) .....Feb. 16 79

Electrostar GMBH—Food machines (T) Apr. 20 38

Elin AG—Electric generators heat Austrian buildings (N).....Jan. 5 27

Elmis, SPA—Adding machine (T) Feb. 23 35

Emerson & Cuming Inc.—Coating withstands 600 F (SP).....Feb. 23 42

Engineers Joint Council—Engineer teaching pay up 8.3% in 2 years (N) May 18 24

English Electric Co., Ltd. — Circuit breaker holds oil at constant pressure (D) .....June 22 35

E S Products Co.—Self-adjusting fasteners for wood and metal (D) May 11 22

Esso Research & Engineering Co.
Higher compression ratios seen for future engines (D).....June 15 8
Hydrocarbon fuel cells for direct conversion of petroleum into electrical energy (D) .....Mar. 16 26
Multi-purpose greases produced with calcium-salt thickeners (D)).June 1 9
Oil-burning snow-melter (D)....Jan. 12 9
Translating steel specifications (N) June 1 15

Ethyl Corp.—TEL process (N)...June 29 27

Evis Mfg. Co.—FTC relies on technical testimony, turns deaf ear to consumer in false advertising case (N) Apr. 27 25

Fairbanks, Morse & Co.—Cam-type centrifugal clutch (SP).....Jan. 19 95

Fairfield Engineering — Design self-quenching control rectifier (N) May 25 22

Fansteel Metallurgical Corp.
Columbium-base alloys (SP)...May 25 69
Refractory metals. A. F. Busto.May 25 43
Tungsten is deep-drawn and extruded (N) .....Apr. 6 16

Farbenfabriken Bayer AG
Polycarbonate resin that stands—150 to 243 F (D).....Mar 23 9
Sintered plastic mix to reduce wear when nylon bearings are used with steel shafts (D).....Apr. 6 11

Farval Corporation—New lubrication system (N) .....June 8 42

Federal Trade Commission—Relies on technical testimony, turns deaf ear to consumer in case against Evis Mfg. Co. (N).....Apr. 27 25

Federated Foundries Ltd.—Develop reciprocating electric motor (N) Apr. 6 27

Ferranti-Packard Electric Ltd.—Cathode-ray tube stores images (D)...Feb. 9 11

Ferrington Mfg. Co.—Battery-operated tester (T) .....Feb. 9 40

Fetroxcube Corp. of America—Light-sensitive resistor (SP).....June 1 36

Fiber-Resin Corporation—Big boom in sprayed structures (N).....Mar. 2 23

Filmsort Co.—Printing and reading machines (D) .....Jan. 26 7

Fischer & Porter Co.—Analog-to-digital recorder (SP) .....June 1 36

Firth Sterling Inc. American Electro Metal Div.—New "hardmetals" can be made (D).....June 22 36

Fluidmaster Inc.—Ball cock valve puts preasure to work for tight seal (PD) May 11 78

Food Machinery & Chemical Corp.—Aluminum amphibious carrier (N) June 8 36

Foote Mineral—Compounds that can "solubilize the insoluble" (D) May 25 19

Ford Instrument Co.—Nuclear-powered merchant ship to try new design (N) Mar. 9 29

Ford Motor Co.
Automotive gas turbine (N)....Apr. 20 24
Walker, George W. (PV).....Mar. 9 52
Wheeless Ford slides on air (N) June 14 23

Ford Motor Company's Electronics Dept.
Dr. L. J. Giacoletto predicts home owner may someday sell power back to utility companies (N).....May 4 17

Ford Motor Co. Ltd.
English Anglia (PD).....Apr. 27 54

Goodyear Pumps Ltd.—Rubber parts for flexible pump (PD).....Feb. 16 58

Goodyear Tire & Rubber Co.
New dating (time-lapse measurement) systems (D).....Apr. 13 26
World's largest tire (N).....Mar. 11 26

Gossen, P. & Co.—Relay controlled by microamp switches full ampere (D) June 1 11

Gould & Eberhardt Inc.—Gear-tooth index error. H. R. Ronan Jr. (RS) Jan. 19 91

Grnau-Flow Systems Ltd.—Pump works like human throat, swallows bulk materials (PD).....Apr. 13 68

Gregory Industries Inc. Welding Div.—Welding gun (T).....Mar. 9 48

Greif Werk GmbH—Revolving drum saves abrasive belts (PD)....June 8 85

Gries Reproducer Corp.—Molded Delrin plastic fasteners (N).....June 8 46

Haller Incorporated—Powder metallurgy can compete with stamping for many thin parts. John Haller.....May 11 82

Halmatic Ltd.—Largest plastic yacht (N).....Feb. 2 18

Haloid Xerox Inc.—Static electricity prints photos (PD).....June 8 82

Hamilton Manufacturing Co.
Drafting table (N).....June 8 47
Drafting table-desk (T).....June 15 43

Hamlin Inc.
Level-sensing potentiometer (SP) June 29 38
Magnet-actuated switch (SP)..Jan. 26 44

Handy & Harman—Silver solves product design problems (N).....Mar. 9 18

Harker-Hannifin Corp., Hannifin Co. Div.—Charts give safe piston-rodsize. Z. J. Lansky (RS).....Feb. 2 67

Harsco Corp. Taylor-Wharton Div.—Controlled explosive blasts hardness into steel. W. A. Harper.....Apr. 13 62

Harvey Mudd College—Cavitation in positive-displacement pumps. W. E. Wilson .....Mar. 2 47

Haydon Instrument Co. — Precision counter (SP).....Feb. 9 42

Haydon Switch Inc.—Miniature pressure switch (SP).....Feb. 16 79

Hayes Stellite Co.—High-strength columbium alloy (N).....June 8 45

Herminghausen-Werke GmbH—Floating bearing adjusts itself (PD)...June 8 83

Herrmann H. W. & Co.—Simple monitoring system for battery water level (D).....Apr. 6 11

Heyman Manufacturing Co.
Accordion-tyne terminals (N)..June 8 45
Minature bushings (SP).....June 15 47

High Vacuum Equipment—High-vacuum, electron-beam welders (D)...Mar. 23 7

Hilliard Corp.—Intermittent drive unit (SP).....Apr. 20 42

Hills-McCanna Co.—Metering and proportioning pump (T).....Mar. 9 48

Hoffman Electronics Corp., Consumer Products Div.—Cox, Ray B. (PV) Mar. 9 53

Hunter Spring Co.—Prestressed power spring (N).....June 8 41

Hydroforming Corp. of America—Fluid-pressure forming (N).....June 8 43

IATA Technical Conference—Set design requirements for aircraft instruments, systems (N).....Mar. 9 27

Illinois Tool Works Spiroid Div.—Right-angle gear system (N).....June 8 43

Imperial Chemical Industries—Molded nylon chain for lightweight drives (D).....Feb. 23 8

Indiana University—Muller, H. J. on gravity free experiments without space flight (N).....Jan. 12 14

Interatom—Germany developing A-powered ship (N).....Mar. 9 29

Interchemical Corp. Adhesives Dept.—These parts carry their own adhesives. R. C. Lillie.....Mar. 2 57

International Business Machines Corp.—Graves, W. R. (PV).....Apr. 20 41

International Harvester Co. Ltd.—Short-cut to mowers and roots. Dr. B. N. Ghosh (RS).....Mar. 30 69

International Harvester of Canada—Canadians veto US truck designs (N) Feb. 9 28

International Instruments Inc.—Miniature control meter (SP)....Mar. 16 77

International Rectifier Corp.—Contoured photovoltaic cells (SP).....Jan. 26 44

International Resistance Co.—New approaches to design of fixed resistors (D).....Feb. 16 19

Investment Casting Institute—Members research for each other (N)..Mar. 23 21

Isbrandtsen Company—Nuclear-powered merchant ship to try new design (N) Mar. 9 29

I-T-E Circuit Breaker Co. — Magnetic clutch eliminates airgap adjustments (SP).....Apr. 13 85

JRH Products—Swivel and ball couplings (D).....Mar. 2 19

Japanese National Railways—Diesel electric locomotive (T).....Jan. 12 38

Jenny Pressen AG—Press (T).....Feb. 9 40

Jet Ignition Co.—Electronic instrument measures high temperatures almost instantaneously (D).....June 8 33

Jo-Bu A/S—Clearing saw from Norway (T).....June 1 35

Johns Hopkins University—Foamed plastic "smoke"—clouds of foamed particles .....Apr. 27 19

Johnson, Matthey & Co.—Acid resistance of stainless steels can be increased with platinum (D).....Jan. 26 8

Jones & Laughlin Steel Corp.—Steel that is plastic while cold (SP)....Jan. 12 43

Julianadorp—English decimal system of measurement. G. G. Lips....June 8 90

Junior Engineering Technical Society—World's givingest people (Ed) June 29 17

Kaiser Aluminum & Chemical Corp.
Aluminum forging going after civilian market (N).....Apr. 20 29
When aluminum forgings become practical. Erhard & Rebro.....June 22 76

Kanmar Diesel Engine Co. Ltd.—Diesel engine for farm use (T).....Jan. 12 39

Kaybar Inc.—Spray-on vinyls (N) June 29 13

Kelvin and Hughes (Marine) Ltd.—Compass transmits readings to repeated instruments (N).....Jan. 12 28

Kennametal Inc.—Better wear resistance with two new materials (N) June 8 44

Keystone Engineering Co.—Fluorocarbon check valve (SP).....Mar. 16 77

Kleinewefers, John Sohne Machine-works—Magnet checks tubing bore (PD) Jan. 5 52

Kloeckner-Humboldt-Deutz AG — Germans develop Europe's first hydrogen-gas diesel engine (D)....June 22 37

Krasnaya Presnya Works—Food machine (T).....Apr. 20 39

Kraus & Naimer—Plastic innards fashioned for electric switch (N).Mar. 23 23

Kuitaisai Auto Works—Method for hardening piston pins developed (N) Feb. 16 23

Kyoto University's Technological Dept.—New rubber (D).....Apr. 13 36

LaPointe Industries Inc.—Flexible printed cables (N).....May 4 11

Lamson & Sessions Co.—Knurled-shank bearing bolt (SP).....May 25 69

Langley Research Center—Progress report on Project Mercury (N).Apr. 13 39

Latvian Academy of Sciences—Nitriding process 1000 times as fast (D) May 18 9

Leach Corp.—World's smallest tape recorder (D).....Feb. 16 20

Lead Industries Assn.
Fib-r-reinformed lead (D).....Apr. 6 9
Heat-emissive lead compounds (D) Mar. 9 9

Lehigh Chemical Co.—Lubes for LOX systems (D).....Jan. 19 13

Old-timer still going strong (N).June 8 44
Thermoset with a memory (N).June 8 45

Lincoln Electric Co.—Davis, Alton F. (Charlie) and John C. Lincoln—Welders of men (N).....June 8 38

Lindberg Steel Treating Company—Temperatures from 250F to 2050F created in furnace (N).....May 18 24

Linear Controls Co.—Packaged switching units (SP).....June 22 93

Linemaster Switch Corp.—Footswitch for dictation transcribing (T)..June 15 43

Link Aviation—System speeds RR car identification (N).....Mar. 30 26

Link-Belt Speeder Corp.—Crane strips for travel (PD).....Mar. 2 56

Little, Arthur D. Inc.—Advises sounder R & D management (N).....May 18 31

Lloyd Motoren Werke G-M-B-H—Lloyd Alexander TS (PD).....Apr. 27 55

LMB Engineering Corp.—Flexible vinyl grommet (SP).....Jan. 26 44

Lockheed Aircraft Corp.
Air Force-Lockheed symposium probes outer space environment (N).May 25 26
4-bar linkage unfolds stairway to transport plane (PD).....June 22 71
Fuel cells come closer to commercial utilization (D).....Jan. 5 21
Lipp, Dr. James E. (PV).....Feb. 23 38
Monorail design for Seattle (N).Feb. 16 24

Lockheed Missile System—Missile expert says chemical fuel won't put man into space (N).....Mar. 2 24

(A) Abstract. (D) Developments. (DR) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (PV) Points of View.
(RS) Reference Book Sheets. (SP) Significant Parts. (T) Trends in Appearance Design.

Lord Mfg. Co.
Adhesive bonds dissimilar unvulcanized elastomers (SP) ..... May 4 35
Double-extension elastomeric mount (SP) ..... Mar. 30 71
EX-B150-1 can bond dissimilar elastomers before curing (D) ..... Apr. 27 20
Shock tests for rough handling. J. T. Gwinn Jr. ..... May 11 74
Lorenz, C. AG—Develop unitized typewriter, teleprinter (N) ..... June 1 26
Los Alamos Scientific Laboratory—Uranium converts heat to electricity (N) ..... May 4 10
Lubriquipment Engineers — Automatic grease cup (SP) ..... Mar. 16 77
MacLean-Fogg Lock Nut Co.—Locking nuts and screws (N) ..... June 8 46
Magnesium Electron Ltd.—Fasteners with a plastic "skirt" (D) ..... June 29 9
Mahon, R. C. Co.—Low-pressure airflow switch (SP) ..... Feb. 2 71
Malleable Founders Society—
New processes to make familiar materials (N) ..... Feb. 9 16
Rupture data for malleable (N) ..... June 22 40
Mallory, P. R.—New approaches to design of fixed resistors (D) ..... Feb. 16 19
Super-pure aluminum (D) ..... May 11 22
Manatrol Corp. — Control valve with color-coded scale (SP) ..... June 8 107
Mankowitz, & Strasser Ltd.—
Another 12 unusual gearing devices. Federico Strasser (DR) ..... Apr. 13 78
12 expanding and contracting devices. Federico Strasser (DR) ..... Jan. 19 88
12 special gearing devices. Federico Strasser (PD) ..... Mar. 30 64
20 converting mechanisms for rotary-linear motion. Federico Strasser (DR) ..... Mar. 2 64
Marlin-Rockwell Corp.—High-speed bearings (N) ..... June 8 42
Marmco Manufacturing Co.—Radar reflector (N) ..... Mar. 23 18
Mark N Laboratory—Light scans thickness of material (PD) ..... May 25 51
Marquardt Aircraft Co.
Ceramics used to insulate structural parts (N) ..... June 29 30
Ramjet power plant (N) ..... Feb. 9 27
Thermal insulating coatings for 3000 F and above (D) ..... Jan. 5 22
Martin Co.
Assembly-line titan (N) ..... Mar. 2 24
5-lb. atomic generator wins miniaturization award for '58 (N) ..... Mar. 30 22
Martin Co.'s Nuclear Div.—Isotope power is making progress (D) ..... Feb. 23 7
Maryland Shipbuilding & Drydock Co.—Nuclear-powered merchant ship to try new design (N) ..... Mar. 9 29
Maschinenfabrik Augsburg-Nuremberg AG—Articulated trolley buses (N) ..... Jan. 5 25
Massachusetts Institute of Technology
Dr. C. S. Draper chosen to head National Inventors Council (N) ..... May 11 25
Numerical control programs now written by computer (N) ..... Mar. 9 28
Professor White and Dr. Woodson develop all-purpose motor as teaching aid (N) ..... May 4 21
MIT, School of Industrial Management—Dynamic programming—a new tool for maximization. G. F. Hadley ..... May 11 84
McDonnell Aircraft Co.—Wind tunnel (N) ..... June 22 38
Mechanical Equipment, Inc.—Sea-water distilling machine (N) ..... Apr. 20 26
Meijo University, Nagoya, Japan — Rocket-like train borrows ideas from our missiles (N) ..... June 29 26
Metals & Controls Corp.—Exotic metals—more data (N) ..... June 15 14
Metals & Controls Corp. Spencer Thermostat Div.—Small electrical components (T) ..... Feb. 9 41
Metal & Thermit Corp.
Duplex chromium process (N) ..... June 15 28
Organometallic boosters for plastics, paints and jet fuels (D) ..... May 4 7
Metcut Research Associates—Aluminum-silicone paint best protective coating for temperatures to 940 F (D) ..... May 25 20
Metron Instrument Co.—Dynamic torque measurements (N) ..... June 8 48
Michigan State University — Graphical synthesis of four-bar linkages. R. T. Hinkle ..... Feb. 2 40
Milan, Italy Police Headquarters—Burglar alarm that calls the police (D) ..... Mar. 9 13
Milford Rivet & Machine Co.—Rivets fit closer, go in easier (PD) ..... Feb. 2 48
Miller Electric Co.—Electric plugs (T) ..... June 15 42
Miniclutch Co.—Miniature roller clutches (SP) ..... Jan. 19 95
Minnesota Mining and Mfg. Co.
Expandable foam sealer (N) ..... June 8 43
Finer finishes with new material made by impregnating nylon web with adhesive grains (D) ..... June 1 9
High-strength adhesives (N) ..... June 8 47
Thermoelectric generators that use radioisotopes (D) ..... Feb. 9 9
Minnesota Mining and Manufacturing Co. Research and Products Div.—Good ideas plus good management—profits (N) ..... Jan. 26 20
Mitsubishi Heavy Industries Ltd. — 3-wheel truck (T) ..... Jan. 12 38
Mitsui Precision Machinery & Engineering Ltd.—3-wheel truck (D) ..... Jan. 12 38
Monogram Precision Industries, Inc.—Simpler, less-expensive honeycomb sandwich structure reported (N) ..... June 29 27
Monsanto Chemical Co.
Stronger epoxy adhesives at lower cost (D) ..... Mar. 16 26
Triple play for new plastics (N) ..... Apr. 20 16
Montecatini—Polybutylene to be produced in Italy (D) ..... June 1 11
Motom Italiana, SPA—Motorcycle (T) ..... Feb. 23 34
MSA Corp.—Design liquid metal package heat transfer loop (N) ..... Mar. 2 21
Mullard Ltd.—Silicone power transistors in unusual shapes and types (D) ..... June 1 11
Mycalex Corp.—Sintered mica (N) ..... June 8 43
National Academy of Science—Oceans will supply our future materials needs (N) ..... Mar. 9 18
National Aeronautics & Space Agency—
Aircraft and rocket nuclear-propulsion research site selected (D) ..... June 15 13
Activates space group (N) ..... May 4 17
All the earth's a pear (N) ..... May 18 12
Aluminum blading can be designed for service at 1800 F (D) ..... June 8 33
Assigns basic research contract to universities (N) ..... June 8 37
Assigns $10 million in contracts (N) ..... May 11 26
Contracts let, new space vehicles being developed (D) ..... Mar. 9 15
Heat tests scheduled for space flight program (N) ..... Mar. 16 32
Key to fatigue failure in bearings (D) ..... June 1 9
Names committee to deal with "long-range" space matters (N) ..... June 1 25
Patent policy problems: expanded government sponsored R & D programs point up inequities (N) ..... May 4
Relaxation for high-purity metals (D) ..... Mar. 30 19
To hold public hearings on patent policy (D) ..... Apr. 16 13
NASA Langley Research Center — "Handy-man" satellite described (N) ..... Mar. 16 30
National Alliance of TV & Electronic Service Assn.—TV servicemen assay printed circuit design (N) ..... Apr. 6 28
National Bureau of Standards—
Astin, A. V. (PV) ..... Mar. 23 31
Develop method to test resistor noise quality (N) ..... Mar. 23 19
Develops vibration analyzer (N) ..... Apr. 27 22
Facility to simulate government data-processing systems (N) ..... Apr. 6 25
Study fatigue properties of high-strength steels (N) ..... Apr. 20 29
Study high polymers' mechanical shear (N) ..... May 11 23
National Carbon Co.—Refractory fabrics that conduct heat and electricity (D) ..... May 4 7
National Fluid Power Assn.—Urges standardized rod, bore cylinder sizes (N) ..... June 1 24
National Inventors Council—Dr. C. S. Draper of MIT chosen head (N) ..... May 11 25
National Lead Co.'s Titanium Div.—Load-tester for corrosion research (N) ..... Mar. 23 12
National Machine Tool Builders' Assn.—Bodine, Alfred V. (PV) ..... Feb. 9 39
National Patent Development Corp.—New merchandising company (N) ..... June 22 40
National Research Corp.—Vacuum deposit aluminum film (N) ..... May 25 23
National Science Foundation—
More aircraft-missile engineers engaged in R&D, study shows (N) ..... Mar. 16 28
To register scientists and engineers (D) ..... June 15 13
National Sinter-Seal Co.—Sintered-metal parts sealed by new process (SP) ..... May 4 35
National Society of Professional Engineers—Seeks fee hike for federal consulting (N) ..... May 18 22
National Vulcanized Fibre Co.—Selecting plastic laminates for punching. E. C. Graesser ..... Feb. 2 57
Navan Products Inc.—Welcome innovators. Jack Meyer ..... Mar. 9 37
NYU College of Engineering—Thermal stress studied by photoelasticity (N) ..... Jan. 26 12
Newark College of Engineering—Introducing the space crank . . . a new 3-D mechanism. Predale & Hulse Jr. ..... Mar. 2 50
Newark Controls Co.—Subminiature gas-density switch (SP) ..... June 29 38
Nicca Camera Co. Ltd.—Camera (T) ..... Jan. 12 39
Nihon Micromotor Co., Ltd.—Miniature dc micromotor uses rolling commutating system ups efficiency (N) ..... Jan. 12 30
Nippon Motor Industry Co., Ltd.—3-wheel truck (T) ..... Jan. 12 38
Nopco Chemical Co. Physical Laboratory, Plastics Div.—Foamed plastic sandwich panels. Jones & Hersch ..... Apr. 13 69
Norgren, C. A. Co.—Lubricator-filter-regulator (T) ..... June 15 42
Norsk Letmetal A.S.—Lawnmower from Norway (T) ..... June 1 35
North American Aviation—New honeycomb brazing meets quadrupled needs ..... Apr. 27 23
North American Aviation Atomics International Div. — Portable sodium melter (D) ..... June 15 8
North American Aviation, Navan Div.—Dayton Metal Products—contract for first long-range guided missile—story on report on original project—dateline—40 years ago (N) ..... Jan. 5 23
North American Aviation, Rocketdyne Div.
Compatibility is a requirement of materials specifications says D. E. Roda (D) ..... Feb. 16 20
Storable liquid propellants (D) ..... June 22 37
Suggest upgrading transport planes as role for rocket engine (N) ..... May 4 18
Northrop Aircraft's Northrop Div.—Product planners elevated to division staff level (N) ..... Jan. 19 15
Northrop Aircraft Corp. Radioplane Div.
Recovery from space (N) ..... Mar. 23 17
SD-1—radio-controlled reconnaissance (N) ..... Apr. 6 24
Northwestern University — Failure diagram for fluctuating stress. M. F. Spotts ..... Feb. 16 66
Novalux Gesselschaft—Food blender (T) ..... Mar. 9 49
NRC Equipment Corp. —Vacuum cadmium coating (SP) ..... Feb. 9 42
NSU Werke Aktiengesselschaft—NSU—Sport Prinz (PD) ..... Apr. 27 55
Nuclear Metals Inc.—Beryllium hurdles tests as structural material (N) ..... June 22 39
Oak Ridge National Laboratory—Tritium, hydrogen's radioactive isotope, for civilian use (D) ..... June 1 9
Oerlikon Engineer Co.—Locomotive runs on energy stored on flywheel and converted to electric power (PD) ..... Mar. 16 58
Officine Meccaniche—Hydraulic coupling lets driver switch to supercharger (PD) ..... Apr. 13 67
Ohio Gear Co.—Self-cooling speed reducer (T) ..... June 15 42
Ohio State University—V-belt ratings tripled by stress analysis technique (N) ..... May 4 19
Oil-rite Corp.—Chain lubricators (SP) ..... Feb. 2 71
Optical Society—Fiber optics can transmit images (N) ..... Apr. 20 14
Oronite Chemical Company—Big boom in sprayed structures (N) ..... Mar. 2 23
Ottawa Chemical Co.—Fungicide for plastics (D) ..... May 30 19
Overseas Commodex, Inc.—Mechanical mockups—FAC construction kit (N) ..... June 8 48
Owens-Corning—Self-adjusting fasteners for wood and metal (D) ..... May 11 22
Owens-Illinois—Stronger glass promised by recent lab tests (N) ..... Feb. 23 14
Oxy-Catalyst Inc.—Low-cost catalytic muffler (N) ..... Jan. 12 25
Pacific Industries Inc. Unicorn Engineering Corp.—Light-control wins an Oscar (PD) ..... Mar. 16 59
Palma-Knapp—Metering and proportioning pump (T) ..... Mar. 9 48
Paramount Design Co.—Introducing the space crank . . . a new 3-D mechanism. Predale & Hulse Jr. ..... Mar. 2 50
Parke, Davis & Co.—Cusick, William P. (PV) ..... Mar. 23 30
Pathex Ltd.—Floating spindle absorbs backlash in copy milling head (PD) ..... May 25 50
Payne Engineering Co.—Fluid-flow motor control (SP) ..... June 15 47
Peking Automobile Factory—Switch in headlight design (N) ..... Feb. 16 23
Pennsylvania State University—To make a technical decision. M. A. Williamson ..... Apr. 6 35
Perkins, F. Ltd.—Baby diesel engine that develops 33 shp at 3000 rpm (D) ..... Mar. 30 19
Peterson Products—Big boom in sprayed structures (N) ..... Mar. 2 23
Phalo Plastics Corp.—Conductive PVC (SP) ..... Feb. 2 71
Phelps Dodge Copper Products Corp.—Copper tube with off-center hole to be available (D) ..... May 18 7
Philips Electronics Inc.—X-ray spectograph (T) ..... Mar. 9 48
Phillips Petroleum-Astrodyne — "Megaboom"—solid-propellant rocket motor (N) ..... Mar. 16 29
Phoenix Products Co. Metal Spinning Div.—Powered spinning . . . important development in metal forming—Photo story ..... Jan. 5 42

(A) Abstract. (D) Developments. (DR) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (PV) Points of View.
(RS) Reference Book Sheets. (SP) Significant Parts. (T) Trends in Appearance Design.

Photocircuits Corp. — Pluggable patchboard (SP) ..... Mar. 9 57
Picatinny Arsenal—For thick-end cylinders these stress-correction factors. R. I. Isakower (SR) ..... May 25 65
Picatiany Arsenal, Special Analysis Branch — Dollars-and-cents evaluation of new products. Sidney Sobelman ..... June 29 21
Pinin Farina—Farrari has columnless windshield (T) ..... June 29 34
Polaroid Corp. — Print-copier contains molded urea formaldehyde parts (N) ..... Feb. 9 16
Porsche—Safety steering wheels (T) ..... June 29 34
Potez, Henry—French engine interchangeable with US Continental (N) ..... June 15 29
Precise Products Corp.—Hardness field testing unit weighs 9 oz. (N). May 18 14
Precision Mechanisms Corp.—Miniature slip-clutch gear (SP) ..... June 8 107
Presstite-Keystone Engineering Products Co.
Fire-safe mastic sealer (SP) ... Mar. 23 32
High freeze-thaw resistance sealing compound (SP) ..... Jan. 26 44
Printed Circuits, Inc.—Printed circuit armature motor (N) ..... Feb. 16 24
PSG College of Technology, Coimbatore, India—New type of ac motor (D) ..... Feb. 23 8
Psychological Services Inc.—Ruch, Dr. Floyd L. (PV) ..... Apr. 20 40
Purdue University
Roll cams: they stop and go on demand. A. C. Dunk ..... Jan. 19 68
Rupture data for malleable (N) ..... June 22 40
Sets up R & D curriculum as prep for graduate school ..... Jan. 26 19
Radiation, Inc.—Data handlers for computers and controls (T) ..... Jan. 26 36
Radiation Research Corp.—Nuclear batteries (SP) ..... Jan. 26 44
Radio Corp. of America
Electroluminescence in color (SP) ..... Mar. 2 71
Engstrom, Dr. E. W. (PV) ..... Feb. 9 38
Micromodule samples for engineering evaluation (D) ..... Apr. 20 9
Power tubes of advanced design (D) ..... Apr. 6 9
RCA Labs—Create top rank for scientists (N) ..... Feb. 16 24
RCA Missile & Surface Radar Dept.—A design review will catch those boners. D. P. Simonton ..... Jan. 5 64
Rand Development Corp.
Miniature loudspeaker solves speech problem (N) ..... Mar. 16 27
Plastic gun can spray chopped or continuous fiberglass rovings (N) ..... Mar. 16 28
Plastic pipe coupling protects tube ends (N) ..... Apr. 6 25
Scouts in Russia for new product ideas (N) ..... Apr. 13 41
Rank Precision Industries, Ltd.—Xerographic computer output (D). Apr. 20 11
Ransburg Company—Wins patent case in Japan court (N) ..... Apr. 20 30
Raybestos-Manhattan, Inc. Manhattan Rubber Div.
Design new belt for small drives (N) ..... June 1 24
Hotter firewalls (N) ..... June 8 43
Multi-V-ribbed, light-duty rubber belt (SP) ..... June 8 107
Slimmer belts can be used with standard drives (D) ..... May 25 19
Reading Laboratory—Five steps to faster reading I Jan. 5—29, II Jan. 12—33, III Jan. 19—21, IV Jan. 26—35, V Feb. 2—21, VI ..... Feb. 9 32
Reed & Prince—Self-drilling screw (N) ..... June 8 47
Renault—Glass-reinforced polyester locomotive (N) ..... Mar. 23 19
Republic Aviation Corp.
Small generator may light entire cities (N) ..... May 18 26
Undertakes research to develop high-temperature hydraulic control system (D) ..... June 22 37
Research Inc.—Temperature programming (N) ..... June 8 48
Revco, Inc.—Double-ended speed regulator (T) ..... June 15 43
Rex Corp.—Photo rectifier assembly (SP) ..... Mar. 23 32
Reynolds Metals Co.
Aluminum sub to study ocean bottom (N) ..... Mar. 9 25
Heavy-end aluminum pipe (SP). Jan. 5 75
Rhein-Flugzeugbau Works—Design air prop in circular shell (N) .... May 18 33
Risdon Mfg. Co. Valve Div.—High-capacity metering valve (D) ..... Mar. 23 7
Rivett—High-pressure valve line (SP) ..... Mar. 2 71
Robertshaw-Fulton Controls Co. Aero Div. — Which snap-action switch? J. O. May ..... Apr. 13 58
Rock Island Arsenal—More-effective corrosion inhibitors (D) ..... May 11 21
Rohr Aircraft Corp. — More stainless honeycomb with new furnaceless brazing (N) ..... Mar. 16 29
Rome Air Development Center—Atoms and thermocouples add new power (N) ..... Feb. 9 14
Rootes Ltd.—Low-cost automatic transmission for British cars (N). Mar. 23 22
Rosemount Engineering Co. — Surface-temperature probe (SP) ..... Feb. 16 79
Ross Operating Valve Co.—Cameron, Russell J. (PV) ..... June 29 36
Roto-Finish Inc. — Polishing-deburring machine gives spinning parts a rub-down—inside and out (PD) ... Feb. 2 50
Rotron Mfg. Co. Inc.
High air-performance fan (SP) .. Mar. 9 57
"Muffin", new axial-flow fan (N) ..... Mar. 2 24
Small fan clips into tight spot. J. C. Larson ..... Apr. 13 76
Royal Academy of Art—Trends in appearance design from Denmark. Erik Herlow (T) ..... June 1 34
Russell, Burdsall & Ward Bolt & Nut Co.—High tension fasteners (SP) ..... June 29 38
Ryan Aeronautical Co.
Explosive forming (D) ..... Mar. 16 25
Explosive forming station (N). Apr. 20 27
Paper-thin steel gets structural jobs (N) ..... June 29 13
Salisbury Precision Engineering—Transportable hydraulic lifting table (D) ..... Jan. 12 12
Sanderson & Porter—Atom power from active pebbles (N) ..... May 18
Satake Works—Rice polisher (T). Jan. 12
Schladermundt, Peter Associates—Battery-operated tester (T) ..... Feb. 9 49
Schloer, H. C. Inc. Modern Design, Div.—Self-compensating hydrostatic bearings (SP) ..... June 29 38
Schlaky Bros. Inc.—Gasser, R. J. evaluates Russian welding progress .... Jan. 19 67
Scientific Oil Compounding Co.—Improved fungicides open new applications for paper (D) ..... Feb. 9 9
Scovill Mfg.—"Hat-box" vacuum cleaner (T) ..... Mar. 9 48
Seconic Electric Co. Ltd.—Lightmeter for motion pictures (T) ..... Jan. 12 39
Seghe Santilli—Portable annular saw (T) ..... Feb. 23 35
Semi-Elements Inc.—Low-cost single-crystal semiconductors can be mass-reduced (D) ..... June 1 9
Sheffid Corp.—Ultrasonic energy can be "piped" around corners (D) .. Feb. 2 14
Shell Chemical Co.—Lower prices for resins, refrigerants, fibers and finishes predicted (D) ..... Feb. 2 14
Shell Chemical Co, Ltd.—Better soldered joints (D) ..... June 29 9
Sherritt Gordon Mines Ltd.—Metal-coated metal and ceramic powders (D) ..... Feb. 23 8
Shockley Transistor Corp.—Transistor diodes may improve design (N) ..... June 15 27
Siegler Corp.—Frequency-control apparatus (D) ..... Mar. 2 20
Siemens (Germany)
Folding chassis on TV set (N) .. Mar. 2 22
Transistors correct telex signals (N) ..... Mar. 23 22
Siemens & Halske—Semiconductor simplifies magnetic field measurement (D) ..... May 18 9
Siemens-Schuckertwerke—Level monitoring system for dry materials (D) ..... Apr. 20 11
Signal R & D Lab—Battery-operated radar sets (D) ..... Mar. 30 19
Signamotor Inc.—Low-capacity tubing pump (SP) ..... May 11 157
Simmons Fastener Corp.—Latching device (SP) ..... May 11 157
Singer Mfg. Co.
High-precision cast plastic mirrors (D) ..... Feb. 23 7
Investment casting or sintered powder. L. E. Raymond ..... June 8 86
Smiths Motor Accessories Div.—Magnetic-powdered clutch drives car (PD) ..... June 8 84
Societa Industrial Misuratori — Water heater, gas-fired (T) ..... Feb. 23 34
Societe Snia Viscosi (Italy)—Paper that's even stronger wet than dry (D) ..... Mar. 9 13
Society of Automotive Engineers—1958 annual SAE meeting (A) ... Feb. 16 116
SPE—Annual Technical Conference, Jan. 27-30—papers (A) ..... Mar. 16 111
Society of Plastics Industry—14th Annual Meeting of Reinforced Plastics Div. papers (A) ..... Mar. 16 115
Socony Mobil Oil—Battery-operated tester (T) ..... Feb. 9 40
Solid State Products Inc.—Silicon PNPN switch (SP) ..... Apr. 6 47
South Chester Corp.
Modular latch assembly (SP) .. June 15 47
One-hand latching device (N) .. June 8 47
South Chester Corp. Southco Div.—Adjustable pawl fastener (SP) .. Apr. 20 42
Soviet Academy of Sciences—Powdered metals compacted by explosives (D) ..... June 1 11
Specken AG—Hydro-pneumatic machine-tool system (D) ..... Feb. 2 13
Spectracoat Inc.
New devices for heat control, wear measurement (D) ..... Jan. 19 14
Sees more optic measuring (N). Jan. 12 31
Sperry Gyroscope Co.—Jet drone electronics (N) ..... June 29 31
Sperry Gyroscope Company of Canada, Ltd.—Analog and digital techniques control machine member (N). May 25 21
Sperry Rand Corp. Ford Instrument Co. Div.—Record gear ratios. Sigmund Rappaport ..... June 22 67
Spindles, Motors and Machines Ltd.—Frictionless universal joint smooths wobble of bobbin (PD) ..... June 22 70
Square D Company
Static-control modules (N) ..... June 8 45
Transistor-equipped static control module (SP) ..... June 15 47
Stacor Equipment Co.—Adjustable drafting board (N) ..... June 8 47
Stamping Service Inc.—Frosted look for stainless steel (SP) ..... Mar. 2 71
SREM (France)—Magnetic inspection at 400 to 1000 parts an hour (D) ..... Jan. 5 21
Stanat Mfg. Co. Inc.—Pipe coupling (SP) ..... Mar. 23 32
Standard Motor Co. Ltd.—Industrial power units in the 18- to 85-bhp range (D) ..... Mar. 2 20
Standard Pressed Steel Co.
Adjustable drafting board (N) .. June 8 47
High-strength bolts (N) ..... June 8 47
New structural fasteners save 33⅓% in weight (N) ..... May 18 23
Self-locking coupling nut (SP). Mar. 2 71
Standard Oil Co. of Indiana—Greases for 700-F service available (D) .. June 8 33
Stanford Research Institute
Additives increase service life of synthetic fluids (D) ..... Jan. 5 22
Modulated-air speakers (D) .... May 25 19
Stanley Works, Stanley Tool Div.—West, R. F. (PV) ..... Jan. 26 40
State College of Washington—Milk-fed heat pump system (D) ..... May 25 19
Statens Industraining Center—Trends in appearance design from Norway. H. E. Jorner, ME (T) ..... June 1 35
Stow Mfg. Co.—High-speed power-drive flexible shaft (SP) ..... Jan. 19 95
Strain Gage Readings—More on Photo-Stress. Peter Stein ..... June 8 79
Studebaker-Packard — Cost-cutting features highlight design of Lark (N) ..... June 22 38
Sundberg-Ferar Inc.
How much appearance design does a product need? Montgomery Ferar (T) ..... Mar. 23 28
Small-boat radar displays (T) .. Feb. 9 40
Sundstrand Turbo
Chemical gas-turbine efficiency can be doubled (D) ..... May 18 7
Gas bearings running at 2000 F (D) ..... Feb. 23 7
3200 cps electrical system predicted for missiles (D) ..... June 29 8
Superior Ball Joint Corp.—Ball-joint design (SP) ..... June 22 93
Sylvania Electric Products Inc.—More room for common standards. K. M. Stoll ..... June 22 79
Synthane Corp.—Flame-retardant laminates (N) ..... June 8 44
Taber Instrument Corp. — Low-range pressure pickup (SP) ..... May 18 47
Tadema SRL—Meet the "insect-wing" metal panel. Dr. W. M. Von Tannenberg ..... Mar. 16 62
Tape Cable Corp.—Multiconductor tape (SP) ..... Feb. 9 42
Technique Associates — Contact-making ammeter (SP) ..... Mar. 30 71
Technological Research Institute for Tractors and Agricultural Machinery—Soviet farm plow (D) ..... June 29 9
Telecomputing Corp.—Test gives relay specifications. T. R. Welch .. June 8 88
Teraoka Precision Instruments — Scale (T) ..... Jan. 12 39
Texas Instruments Inc.—Subminiature light-sensitive silicone diode (SP) ..... Mar. 9 57
Texas Instruments Inc. Semiconductor Component Div.—Yuletime in Texas—diamond-lattice crystal comprises Xmas tree (N) ..... Jan. 12 29
Thiokol Chemical Corp. Reaction Motors Div.
Aluminum and titanium alloy content may increase severity of corrosion of nickel-based materials (D) .. June 8 34
X-15 powerplant (N) ..... Apr. 13 40
Thiokol Corp.—Rubber plus fuel: watch hidden damage (N) ..... Apr. 20 16
Thompson Products—more-ductile columbium at lower cost (D) ..... May 4 7
Thompson Ramo Wooldridge Inc.—Corben, H. C. (PV) ..... Mar. 23 31
Tiltman Langley Ltd.—Roller-type clutch (D) ..... Feb. 16 19
Tokyo Shibaura Electric Co.—Automatic rice cooker (T) ..... Jan. 12 39
Toro Mfg. Corp.—Lawn mower—floating cutter gives grass a fine shave (PD) ..... Mar. 16 60
Torrington Mfg. Co.—Mixed-flow impellers enter air-moving field. C. A. Hathaway ..... Jan. 5 56
Torrington Mfg. Co. Air Impeller Div.
How fan hp and output vary with size I. J. Roy (RS) ..... Apr. 13 81
Nomograph for changes in fan speed. I. J. Roy (RS8) ..... Mar. 30 67
Toyo Kogyo Co. Ltd.—Mazda, 4-wheel truck (T) ..... Jan. 12 38

(A) Abstract. (D) Developments. (DR) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (PV) Points of View.
(RS) Reference Book Sheets. (SP) Significant Parts. (T) Trends in Appearance Design.

Triumph Werke AG—Unitized typewriter, teleprinter (N) ..... June 1 26
Troester, Paul Maschinenfabrik—Speedier molding by merry-go-round (PD) ..... Jan. 19 73
Troy Blanket Mills—Interlocked nonwoven felt (SP) ..... Mar. 23 32
Tru-Flo Valve Co. Inc.—3-way control valve (SP) ..... Feb. 23 42
Tube Investments Research Laboratories—New explanation of stress corrosion cracking (D) ..... May 25 20
Tung-Sol Electric—Cold-cathode radio tube (D) ..... Mar. 2 19
Ultra-Violet Products Inc.—Nonradioactive phosphorescent paints (SP) ..... June 8 107
Union Carbide Corp. Linde Co. Div.
Product design for —300 F. P. E. Loveday ..... Feb. 2 60
Short-arc welding process (SP) ..... June 22 93
Swan, David evaluates USSR welding progress ..... Jan. 19 65
Union Carbide Corp. Union Carbide Plastics Co., Div.—Polyethylene molding material (SP) ..... June 22 93
Union Carbide Plastic Co.'s Development Laboratories—Use single nozzle epoxy gun with sprayed fiber glass (N) ..... Feb. 23 27
Union Carbide Metals Co.
High-strength columbium alloy (N) ..... June 8 45
'Noble' titanium ups corrosion resistance (N) ..... Apr. 13 42
Union Industrial Equipment—gas detector kit for toxic materials (N) ..... May 18 12
United Acetylene Welding Research Institute (Russia)—Gas-pressure equalizer (D) ..... Jan. 19 13
United Aircraft Corp. Hamilton Standard Div.—Lightweight temperature-control system (D) ..... Feb. 16 19
United Carr Fastener Corp.—Double-ended eyelets (N) ..... June 8 47
U. S. Air Force
Air-Force-Lockheed symposium probes outer space environment (N) ..... May 25 26
Cushioning material of Teflon embedded in matrix of silicone rubber (D) ..... Mar. 2 20
USAF Cambridge Research Center—Better materials for thermoelectric power generation (D) ..... Feb. 2 14
USAF Nuclear Systems Development—Design holds the key to nuclear aircraft (D) ..... Feb. 23 7
U. S. Army—Armalite rifle (N) ..... Apr. 27 23
U. S. Army Engineer R & D Lab—Transient shock waves traced and recorded (N) ..... Apr. 20 14
U. S. Army Ordnance Missile Command—To fire supplies by missile (N) ..... June 8 38
U. S. Army Ordnance Missile Command Redstone Arsenal—Cuthill, R. W. (PV) ..... June 29 37
U. S. Army Signal Corps Laboratories—Cold-cathode radio tube (D) ..... Mar. 2 19
U. S. Dept. of Agriculture
Lubricants and fluids for activating mechanisms may result from new starch derivative (D) ..... Apr. 27 20
Plastics can be made hard, translucent (D) ..... June 22 35
Stearate beefs up plastics and paints (N) ..... Mar. 9 18
USDA Agriculture Research Center—Water-operated electrical switch tested (N) ..... June 29 12
U. S. Dept. of Commerce. Business & Defense Services Administration—New classification system for electrical measuring instruments (D) ..... June 22 36
U. S. Dept. of Defense
DOD handles NASA security clearance (N) ..... June 22 38
Issues new engineer drawing spec (N) ..... May 4 22
U S Electrical Motors, Inc.—Right-angle gear motor (T) ..... June 15 43
U S Industries Inc. Clearing Div.—Lathe is all-welded for rigidity, modular for flexibility (T) ..... June 29 34
U. S. Naval Air Material Center
Dry-film lubricants that won't rub off being sought (D) ..... Apr. 27 19
Fabric investigation leads to new finds (N) ..... June 15 14
U. S. Naval Ordnance Laboratory—Coatings that break circuits (D) ..... Jan. 19 13
U. S. Naval Research Laboratory
Direct conversion of heat to electricity —another route (D) ..... June 8 34
"Inorganic rubber" and several promising resins (D) ..... Apr. 6 9
Metal parts can be protected in tropical environments by choosing the proper organic coating (D) ..... Jan. 19 14
Pulsed combustion increases gas turbine efficiency (D) ..... Mar. 9 10
Radio blackouts caused by X-radiation from the sun (N) ..... Feb. 9 14
Stable lubricants can be developed for high-temperature use (D) ..... Feb. 2 14
Transparent plastic stress analysis (N) ..... June 1 14
Vacuum alters mechanical characteristics of materials (N) ..... June 1 23
Watch these "standard" samples (N) ..... June 1 15
U. S. Navy
Biggest radio telescope being built (D) ..... May 18 11
Missile-carrying sub (N) ..... Feb. 16 25
Shrouds design details of radio telescope in secrecy (N) ..... June 8 37
3000-mi range possible for Polaris missile (D) ..... June 1 13
U. S. Navy Allegany Ballistics Laboratory—Developing new engine for Polaris (N) ..... Feb. 16 23
U. S. Patent Office—What happens to patent applications? T. L. Brown ..... Apr. 20 33
U. S. Post Office Dept.—Magnetic coder tested for automatic mail sorter (N) ..... Mar. 9 25
US Rubber Co.
Creep-resistant plastic costs less than nylon (N) ..... May 18 21
Ostling, Carl (PV) ..... Apr. 20 40
Timing belt that can serve as a V-belt (D) ..... Apr. 6 9
US Rubber's Naugatuck Chemical Div.
Kralastic K-2590—new material to challenge nylon (N) ..... May 4 11
Nylon-like gum plastic (SP) ..... May 25 69
Nylon's tough new rival. M. S. Thompson ..... June 8 76
US Steel Corp.
Austin, Dr., J. B. (PV) ..... Feb. 9 38
Vinyl-coated steel (SP) ..... Feb. 23 42
Universal Cyclops—Exotic metals—more data (N) ..... June 15 14
University of California
Dyes that convert solar into electrical energy (D) ..... Jan. 12 9
Smaller cyclotron—but over twice the power (N) ..... Jan. 26 21
University of Illinois—Experiment to combat engineer shortage (N) ..... June 15 30
University of Michigan
Construct radio astronomy antenna at Portage Lake Observatory (N) ..... Jan. 12 26
Goldberg, Dr. L. cites engineering bars to space observatories (N) ..... May 11 26
University of Michigan, College of Engineering—Shape of pin-connected linkages. Potts & Liddicoat (RS) ..... Apr. 27 71
University of New South Wales—New equations locate dwell position of 3-gear drives. Dr. J. Hirschhorn ..... June 8 80
University of Pittsburgh—Glass fibers that stand 5000 F (D) ..... Apr. 20 9
University of Wisconsin—Fuels light up for research (A) ..... Apr. 6 14
Valvair Corp.—Auto-manual control valve (SP) ..... June 22 93
Vanadium Alloys Steel Co.—Better alloy steels from new furnace (N) ..... May 11 25
Van Doorne's Automobielfabrik N. V.—DAF (PD) ..... Apr. 27 56
Veb-Sachsen Werke—Aluminum replaces copper in large motor (N) ..... Mar. 23 19
Velcro Sales Corp.—Press-to-close fastening (SP) ..... Apr. 20 42
Venner Electronics Ltd.—Crystal clock (D) ..... Mar. 23 9
Versa-Loc Corp.—Clamp-fastener (SP) ..... Feb. 23 42
Vickers Inc.
Hydraulic Meeting (N) ..... May 11 27
Variable-volume vane pump (SP) ..... Apr. 27 75
Vickers Inc. Machinery Hydraulics Div.—Building-block hydraulic servos (N) ..... June 8 46
Virginia Caroline Chemical Corp.—Flame-resistant urethane foams (N) ..... May 4 22
Visiball Mfg. Co.—Compensated grease flow (SP) ..... Mar. 16 77
Vitro Laboratories
11 ways to couple tubes. F. W. Wood Jr. (DR) ..... Mar. 16 70
9 ways to align mating parts. Wood Jr. & Minter (DR) ..... May 11 88
Single-plate gear trains: 11 ways to mount shafts. F. W. Wood Jr. (DR) ..... Jan. 5 68
12 ways to retain gaskets. F. W. Wood Jr. (DR) ..... Feb. 2 64
12 wire guides. F. W. Wood Jr. (DR) ..... Apr. 27 68
Voss, Ernst—Gas range (T) ..... June 1 34
Warner & Swasey Co.—Earth mover designed around operator (T) ..... Apr. 6 38
Washington State Institute of Technology—Study to develop better bearings for "space ships of the future" (D) ..... Mar. 16 25
Waterous Co.—Split-shaft power takeoff (SP) ..... Apr. 13 85
Wayne Kerr Corp.—Adams, Boyce M. (PV) ..... Mar. 23 20
Western Gear Corp.—Titanium gears outlast steel (D) ..... Feb. 2 13
Western Reserve University—Knee-deep in paper. Allen Kent ..... Jan. 12 34
Westinghouse Air Brake Co. Industrial Products Div.—Adjustable flow valve (SP) ..... Mar. 30 71
Westinghouse Electric Corp.
Develop machine to man machines (N) ..... Jan. 12 23
Powder-metal bars—made thicker (N) ..... May 4 19
Westinghouse
Westinghouse Machine-tool Forum (N) ..... Apr. 27 21
Westinghouse Electric Corp. Electric Appliance Div.—Perl, F. W. (PV) ..... Jan. 26 40
Whitso Inc.—Push-to-fasten (SP) ..... Feb. 23 42
Winslow Product Engineering Corp.—Air-operated drill (T) ..... Feb. 9 40
Winterburn Mfg. Co.—Shaft-driven electrical control (SP) ..... Apr. 27 75
Wollensak Optical Co.—High-speed motion picture camera (N) ..... Mar. 9 16
Worcester Moulded Plastics—Plastic cost patterns—a 10 year review (N) ..... Jan. 12 18
Woronesh Wood Technical Institute—Wood bearings (D) ..... Mar. 23 9
Wright Air Development Center
Barium ferrite magnets to replace Alnico (D) ..... Apr. 13 36
Cadmium sulfide solar batteries (N) ..... Jan. 12 18
Ceramic structural materials strengthened by alloying (D) ..... Mar. 9 10
Fungi that live without air are becoming a space-age headache (D) ..... Feb. 2 13
High-modulus glass-reinforced plastics (D) ..... Feb. 23 7
New approaches to design of fixed resistors (D) ..... Feb. 16 19
Scandium will be next "new" metal (D) ..... Jan. 19 13
Wright Air Development Center Materials Lab
Hydraulic fluids for the 700-F range (D) ..... Mar. 9 9
Seals for minus 400F are an immediate necessity (D) ..... June 22 36
Wright-Patterson AFB—New lab speeds metallurgical research (N) ..... Mar. 2 24
Wyman-Gordon Co.—Ductile beryllium forgings (N) ..... Apr. 6 25
Yale & Towne Co.—Fuel cells as key to transport problem (N) ..... June 29 32
Zahnradfabrik Friedrichshafen AG—Roller clutch smoothens bus ride (PD) ..... Feb. 16 60
Zeiss, Carl—Drill jewel bearings thermally (N) ..... Feb. 16 22

AUTHORS' INDEX

ADAMS, B. B. & G. A. Peters—Designing control consoles.....Apr. 13 64
Readable panel markings.....May 25 55
ADAMS, Boyce M.—Point of view Mar. 23 30
ASTIN, A. V.—Point of view.....Mar. 23 31
AUSTIN, Dr. J. B.—Point of view.Feb. 9 38
BENNETT, William S.—The technical survey . . . why and how....June 15 38
BENSON, Bernard S.—Point of view Jan. 26 41
BODINE, Alfred V.—Point of view Feb. 9 39
BROWN, Theodore L.—What happens to patent applications?.....Apr. 20 33
BRUCKNER, Robert E.—Does America have a design heritage?.....May 18 40
BUCKLAND, Mrs. B. O.—When air is the coolant.....Feb. 16 54
BURR, R. Page & R. L. Swiggett—Design your own dc motors with printed circuit rotors.....Mar. 16 64
BUSTO, Alan F.—Refractory metals May 25 43
CAMERON, Russell J.—Point of view June 29 36
CARREIRO, Joseph—An industrial designer eyes the design show..June 15 42
CHARBONNEAUX, Philippe — Does America have a design heritage? May 18 37
CHIRONIS, Nicholas—Wear of lubricated surfaces.....Apr. 13 74
COOLEY, William H.—Buckling in hydraulic tubing.....May 11 71
CORBEN, H. C.—Point of view..Mar. 23 31
COVELLI, F. J.—How to put more into your span parts.....Apr. 27 58
COX, Ray B.—Point of view.....Mar. 9 63
CULLER, George D.—Does America have a design heritage?.....May 18 41
CUSICK, William P.—Point of view Mar. 23 30
CUTHILL, R. W.—Point of view.June 29 37
DAVIDSON, R. B.—Better linear polyethylene moldings.....Mar. 16 55
DREYFUSS, Henry—Does America have a design heritage?.....May 18 35
DU BOIS, Wilbur—Structural vibration—an oscilloscope tells the story in pictures .....Feb. 2 52
DUNK, A. C.—Roll cams: they stop and go on demand.....Jan. 19 68
DUNNING, John R.—Has capitalism failed? .....Mar. 9 45
EGGERS, Russ—Economics of research and new product planning....Mar. 9 42
ENGSTROM, Dr. E. W.—Point of view Feb. 9 38
ERHARD, D. D. & E. C. Rebro—When aluminum forgings become practical June 22 76
FAIRMAN, J. F.—Point of view..June 29 36
FERAR, Montgomery—How much appearance design does a product need? Mar. 23 28
FOLEY, Jerome J. Jr.—Freehand sketches .....Feb. 9 34
GARDNER, Annesta R.—Nonmetals for built-in conveyors.....Apr. 27 51
Taming tomorrow's power sources May 4 28
What's new about the new papers Feb. 16 50
GASSER, Robert J.—Evaluates Russian welding progress.....Jan. 19 67
GEORGE, Russel E.—Adhesives do a better job of bonding lamination stacks .....Apr. 27 63
GHOSH, Dr. Biswa Nath—Shortcut to powers and roots.....Mar. 30 69
GRAESSER, E. C.—Selecting plastic laminates for punching.....Feb. 2 57
GRANNISS, D. S.—Copper alloys for those small tubular parts....Feb. 2 44
GRAVES, W. R.—Point of view..Apr. 20 41
GREENWOOD, Douglas C.—Assembly methods . . . an engineering roundup June 8 91
6 mixers for burner gas and air June 22 86
GWINN, James T. Jr.—Shock tests for rough handling.....May 11 74
HADLEY, George F.—Dynamic programming—a new tool for maximization May 11 84
HALLER, John—Powder metallurgy can compete with stamping for many thin parts.....May 11 82
HARPER, W. A.—Controlled explosive blasts hardness into steel....Apr. 13 62
HATHAWAY, Charles A.—Mixed-flow impellers enter air-moving field Jan. 5 56
HERLOW, Erik—Trends in appearance design .....June 1 34
HERSCH, P. & R. E. Jones—Foamed plastic sandwich panels.....Apr. 13 69
HINKLE, Rolland T.—Graphical synthesis of four-bar linkages.....Feb. 2 40
HIRSCHHORN, Dr. J.—New equations locate dwell position of 3-gear drives June 8 80
HUBER, R.—Universal tables for circular segments and sectors....Feb. 16 72
HULSE, A. H. Jr. & J. O. Predale—Introducing the space crank . . . a new 3-D mechanism.....Mar. 2 50
ISAKOWER, Robert I.—For thick-end cylinders these stress-correction factors .....May 25 65
ISBRANDT, R. H.—Point of view.Feb. 9 39
JOHNSON, Ralph O.—How to lick spring tangling .....June 22 74
JONES, R. E. & P. Hersch—Foamed plastic sandwich panels.....Apr. 13 69
JORNER, H. K., ME—Norway—trends in appearance design.....June 1 35
KEE, H. L.—Electromachining speeds its attack.....Mar. 2 59
KELSEY, Ray A.—A system for your personal file.....Apr. 6 43
KENNEDY, R. A.—Point of view.Feb. 23 39
KENT, Allen—Knee-deep in paper Jan. 12 34
KOFF, Richard M.—The engineer's bookshelf .....Mar. 30 45
Solution by analogy.....Jan. 26 28
Thinking machines need thoughtful men .....May 4 75
KOFF, R. M. & F. R. Park—Science and politics don't mix . . . or do they? June 1 28
KRIVETSKY, Alexander—Carpet plotting —new way to display high-temperature materials data.....Jan. 5 60
Partially loaded continuous beams Mar. 16 73
LANSKY, Z. J.—Charts give safe piston-rod size.....Feb. 2 67
LARSON, John C.—Small fan clips into tight spot.....Apr. 13 76
LIDDICOAT, R. T. & P. O. Potts—Shape of pin-connected linkages....Apr. 27 71
LILLIE, R. C.—These parts carry their own adhesives.....Mar. 2 57
LIPP, Dr. James E.—Point of view Feb. 23 38
LIPS, G. G.—English decimal system of measurement .....June 8 90
LOVEDAY, P. E.—Product design for —300 F.....Feb. 2 60
LYNCH, C. J.—One man engineering firm Feb. 23 30
MARKS, Harold—Metal bonding aids spinning .....Feb. 16 63
MAY, J. O.—Which snap-action switch? Apr. 13 55
McPARLAND, D. L.—Point of view Mar. 9 53
MELLOR, H. Clay—Alloyed plastics give oilless bearings.....May 25 58
MEYER, Jack—Welcome-inventors Mar. 9 37
MINER, Richard Y.—Point of view Feb. 23 39
MINTER, J. F. & F. W. Wood Jr.—9 ways to align mating parts...May 11 88
MORGAN, N. L.—Which Fhp motor for the job?.....Jan. 19 76
MORGAN, Willis E.—Point of view Mar. 9 52
NOY, Peter C.—6 types of corrosion . . . a preventive guide.....Mar. 2 67
NUNN, H. D.—Static-pressure transducers .....Jan. 5 48
OPOCENSKY, Willard J.—Small shaft becomes its own broach for retaining gears .....Feb. 2 47
OSTLING, Carl—Point of view....Apr. 20 40
PARK, F. R. & R. M. Koff—Science and politics don't mix . . . or do they? June 1 28
PERL, F. W.—Point of view.....Jan. 26 40
PETERS, G. A. & B. B. Adams—Designing control consoles.....Apr. 13 64
Readable panel markings.....May 25 55
PIPPENGER, John J.—Rating fluid-control valves.....June 22 80
PITZER, E. C.—Higher-energy batteries May 25 46
POTTS, P. O. & R. T. Liddicoat—Shape of pin-connected linkages....Apr. 27 71
PREDALE, J. O. & A. D. Hulse Jr.—Introducing the space crank . . . a new 3-D mechanism.....Mar. 2 50
REID, J. W.—With research equipment —safety first.....Jan. 19 82
RAPPAPORT, Sigmund—Record gear ratios .....June 22 67
RAYMOND, Lloyd E.—Investment casting or sintered powder.....June 8 86
REBRO, E. C. & D. D. Erhard—When aluminum forgings become practical June 22 76
REDNER, S. & Dr. F. Zandman—Photostress values direct from the polariscope .....June 22 89
ROBERTSON, J. R.—Point of view Apr. 20 41
RONAN, Harold R. Jr.—Gear-tooth index error .....Jan. 19 91
ROSTOKER, W. — Forging presses strength into lightweight castings Feb. 16 61
ROY, I. J.—How fan hp and output vary with size.....Apr. 13 81
Nomograph for changes in fan speed Mar. 30 67
RUCH, Dr. Floyd L.—Point of view Apr. 20 40
SIEGEL, J. J.—Piezoelectric transducers Apr. 27 61
SIMENZ, Rod—This test for oxidation resistance .....Apr. 27 48
SIMONTON, D. P.—A design review will catch those boners.....Jan. 5 64
SIZER, H. S.—Point of view....Mar. 23 30
SMITH, Dr. Frank B.—Point of view Feb. 23 38
SMOLEY, E. M.—How gaskets behave May 25 40
SOBELMAN, Sidney — A dollars-and-cents evaluation of new products June 29 21
SONNTAG, A.—Solid lubricants for extreme pressures.....June 22 64
SPARING, W. H.—How much force to deflect a spring sideways?...Jan. 5 71
SPOTTS, M. F.—Failure diagram for fluctuating stress.....Feb. 16 66
STEIN, Peter—More on PhotoStress June 8 79
STEPHENS, Olin J. II—Does America have a design heritage?.....May 18 38
STOLL, Kenneth M.—More room for common standards.....June 22 79
STRASSER, Federico—Another 12 unusual gearing devices.....Apr. 13 78
12 expanding and contracting devices Jan. 19 88
12 special gearing devices.....Mar. 30 64
20 converting mechanisms for rotary-linear motion.....Mar. 2 64
SWAN, David—Evaluates USSR welding progress .....Jan. 19 65
SWIGGETT, R. L. & R. Page Burr—Design your own dc motors with printed circuit rotors.....Mar. 16 64
TANGERMAN, E. J.—Engineering organization in transition.....May 11 47
TERRY, W. M.—Who needs to know . . . and what.....Mar. 23 25
THOMPSON, M. S.—Nylon's tough new rival .....June 8 76
THOMPSON, Marsden—Point of view Jan. 26 41
TIPLITZ, Charles—Helical-spring design chart .....Jan. 19 93
Shafts: 5 steps find . . . strength and deflection .....May 11 91
TOWNSEND, J. R.—Point of view Mar. 23 31
TRIPPE, Peter—What do the Russians weld with?.....Jan. 19 64
TUNIS, Edwin—Does America have a design heritage?.....May 18 42
UNGAR, Eric E.—Numerical integration simplifies complex design....Mar. 16 50
Numerical integration works with dynamic systems too.....Apr. 27 64
VON TANNENBERG, Dr. W. M.—Meet the "insect-wing" metal panel Mar. 16 62
VVEDENSKY Dimitri—Evaluates Russian welding progress.....Jan. 19 66
WALKER, George W.—Does America have a design heritage?.....May 18 37
Point of view.....Mar. 9 52
WARREN, Glenn B.—Point of view June 29 37
WELCH, T. Ross—Relay specifications June 8 88
WELLS, Edward C.—Does America have a design heritage?.....May 18 40
WEST, R. F.—Point of view.....Jan. 26 40
WEYER, Donald E.—New foamed silicones give hi-temp insulation.Jan. 5 50
WIEGAND, William A.—Workable approach to gear tolerances....May 25 52
WILLIAMSON, Merritt A.—To make a technical decision.....Apr. 6 35
WILSON, Warren E.—Cavitation in positive-displacement pumps....Mar. 2 47
WOOD, Frank William Jr.—11 ways to couple tubes.....Mar. 16 70
Single-plate gear trains: 11 ways to mount shafts.....Jan. 5 68
12 ways to retain gaskets.....Feb. 2 64
12 wire guides.....Apr. 27 68
WOOD, F. W. Jr. & J. F. Minter—9 ways to align mating parts.....May 11 88
WORLEY, W. S.—Stronger, narrower V-belt drives.....Apr. 13 72
WRIGHT, Frank Lloyd—Does America have a design heritage?.....May 18 39
YANAGI, Sori—Does America have a design heritage?.....May 18 38
YEAPLE, Franklin D.—Industry's opinion on the reliability of electrical connections .....Feb. 2 54
ZANDMAN, Dr. Felix—PhotoStress analysis .....Mar. 2 43
Reply to P. Stein on PhotoStress June 8 79
ZANDMAN, Dr. F. & S. Redner—Photo-Stress values direct from the polariscope .....June 22 89
